

ASSOCIATED CHAMBERS TO BOOST FOR HARBOR

HARBOR PLANS ARE ENDORSED UNANIMOUSLY

Newport Bay Declared to Be Solution For Lower Freight Rates Here

Indorsement of the proposal to begin action to form a harbor district of Orange County with the ultimate view of issuing bonds for the improvement of the harbor was given at the Associated Chambers of Commerce meeting at Huntington Beach last night. Under the instructions of the booster organization, its officers are to start the petitions at the earliest possible moment.

The first step consists of petitioning the Board of Supervisors for the appointment of a harbor commission of five and the appropriation of a sum of money to be used in securing reliable data upon which to base an estimate for a bond issue. That petition must bear the names of voters equal to fifteen per cent of the vote cast in the county for governor. That means a petition of about 3,000 names.

Lew H. Wallace of Newport Beach, for years a harbor booster, made this explanation at the meeting last night. He said the petition must be in the hands of the supervisors by Sept. 6 so that a tax levy for the purpose can be made.

It was known that the meeting last night was to deal with the harbor proposal. Something of the interest in the project was noticeable in the fact that the gathering was the largest the Associated Chambers of Commerce has held. Not a single word was uttered against the project. Enthusiastic endorsement was given in the addresses and in unanimous vote.

Wallace's Report

Wallace, president of the Associated Chambers, made a written report reviewing the history of the harbor movement in this county. It started in 1907 with the organization of the Newport Beach Chamber of Commerce, from its first meeting committed to the improvement of the harbor.

In 1908 excursions were conducted to the bay. In 1909 indorsement of a plan to get federal aid was given by San Bernardino, Riverside and Orange counties. W. S. Collins' attempt to dredge and make a big fill was fought, and Collins gave up title to eighty acres of water surface.

In 1911 a committee went to Washington and an appropriation of \$2500 for a survey was secured. In 1912 the surveys were made. Since then opposition from an unknown source has caused trouble at Washington. However, the movement is now so strong that the boosters believe the harbor will soon be secured.

Newport Beach awaits a deed from James Irvine for a frontage of 1500 feet on the bay, and will then vote \$100,000 bonds for building the west jetty. All three army engineers in charge of the Los Angeles office have indorsed the plan as entirely feasible. Many men of prominence have been shown the bay, and all have wondered at the dormant state of the harbor.

The last legislature passed the bills making it possible for harbor districts to be formed, so that if Orange county wants to do so it can vote bonds for harbor work.

"What are we going to do about it?" asked Wallace.

The answer came. It was: "We are."

SENATOR WORKS SEES NEWPORT HARBOR SITE

When the Severance Club of Los Angeles visited the Palisades Tavern on Newport Bay recently on one of their outings, there was in the party our own United States Senator John D. Works, whose visit to this popular resort may mean some big things for this section.

The significance lies in the fact that Senator Works took a great deal of interest in the bay and spent several hours out on the water visiting all parts of it, studying the channel and asking many questions regarding the depth of the water at different points and the possibilities of a big deep water harbor here.

Coming just at this time, it is hoped that his visit was not just a happen-so, but rather was made in the interest of the harbor movement. That he was favorably impressed with conditions here, was shown in his conversation with F. D. Cornell, of the Cornell Company, owner of the Tavern as well as of several hundred acres of land at this point, which it is now subdividing. Senator Works congratulated Mr. Cornell on his proposition, expressed his wonder and admiration at what had been accomplished and what could and no doubt would be done, and indicated his intention of coming down again.

Action Against Edison Company Shelved and Probably Abandoned

NEW RATES TO BE GIVER FOR PUMP POWER

Electric Company Man Convinces Hearers That Fight Is Not Advisable

Following an address by a representative of the Southern California Edison Company in which it was declared that Orange County electric light and power charges are in no way a discrimination and in which a new schedule of power rates was announced, the Associated Chambers of Commerce last night voted to defer bringing a proposed action against the Edison Company before the State Railroad Commission for an investigation into the rates charged in Orange County.

At the Associated meeting at Garden Grove a month ago, A. A. Mills as chairman of the public utilities committee reported in favor of starting the proceedings for an investigation of rates. Mills had a lengthy report showing comparisons of rates charged in this county with those charged at Riverside and Pasadena. Upon that report the bringing of the action was ordered by a vote of 13 to 8. The vote last night to defer bringing the action was unanimous.

S. M. Kennedy of Los Angeles, representing the Edison company, was called upon by J. S. Smart of Santa Ana of the public utilities committee, Mills being absent. Briefly stated, Kennedy said:

"The Edison company has about 500 miles of power lines in Orange County. It has the interest of the county and its development at heart, because as the county grows the company will grow."

Conditions Differ

"Conditions make the difference in the rates charged here and in Riverside. Riverside gets its power under a 20-year contract at a figure set by the Edison's predecessor. That contract runs out in 1917. Riverside buys \$50,000 worth of power a year, and distributes it. Buying in bulk it can sell to its pumping plants at any price, and be that much ahead. Riverside serves seventy-nine pumping plants. In this county the Edison company serves over 400. The investment in length of poles per pumping plant is 4 to 1 higher here. More power per well is used at Riverside as it is deeper to water. There power is used the year around by pumping plants, here about six months."

"We have nothing to fear from the railroad commission. Our schedules are public. I am absolutely certain that there is no discrimination against this county. Comparison of conditions will show a reason for every rate. However, it would cost us from \$4,000 to \$5,000 to prepare the case, and it would cost you from \$3,000 to \$4,000, if you employed the engineers to do the necessary work preparing your case. What is the use of spending this money if there is no likelihood of any changes being made?"

"We have prepared a new schedule for pumping plants and have filed it with the railroad commission. It is now available to every pumping plant. Under that schedule you pay a stand-by charge, and you can then get power for one cent per kilowatt hour."

This last announcement seemed to interest men interested in pumping plants, and close inquiries concerning the rates were answered clearly and directly. The stand-by charge, for instance, on a 30-horsepower plant, is \$39.40.

He said the same lighting rate, seven cents, is charged here as elsewhere.

W. T. Brown of Fullerton moved that the proposed action against the Edison company be dropped. J. A. Armitage of Sunset Beach got through a substitute motion that the bringing of the action be deferred. Armitage said that the committee's work had had excellent results.

Advertising Committee

Armitage's advertising committee reported in favor of indorsing the Los Angeles Times. Midwinter Number as an advertising medium. It was stated that Mr. McPherson of the Times was in the county soliciting funds for a write-up of the county in the number. The cost is \$450 a page.

H. M. Adams of Anaheim said he thought some arrangement should be made to get the Times to print a greater amount of Orange County correspondence from day to day.

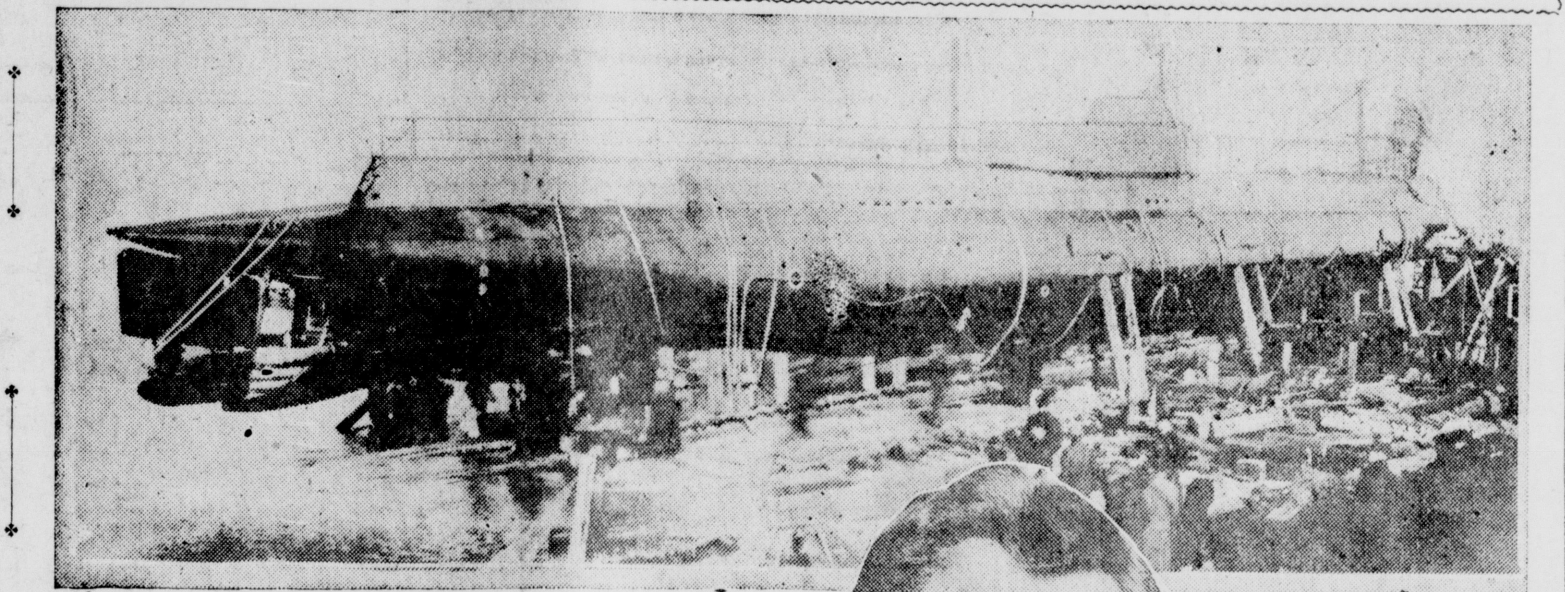

A Times correspondent who was present said that the demands upon the Times for space for correspondence is great, that other towns want to appear in the Times every day, that the Times has more Orange County news in it than all the other Los Angeles papers put together.

Armitage and Smart said they considered the Times Midwinter a great booster, and on Smart's motion indorsement was given.

As an advertising medium. The Midwinter copy for the page to be bought is to be passed upon by an

WORLD'S GREATEST SUBMARINE RAPIDLY NEARING COMPLETION FOR THE UNITED STATES; BOAT CAN CROSS ATLANTIC AND BACK ON HER OWN FUEL

ELEVENTH HOUR FIGHT IS MADE FOR REPRIEVE OF SLAYERS

PHOENIX, July 29.—The initiative petition against capital punishment was today filed. It bears enough names to insure the proposition going on the ballot at the next election.

The opponents of the extreme penalty are elated and feel sure that this latest development will enable them to postpone tomorrow's five scheduled hangings until after the election.

PHOENIX, Ariz., July 29.—It seems highly improbable that the five hangings scheduled for tomorrow will occur.

The condemned men are making an eleventh-hour fight. Their attorneys have demanded writs of habeas corpus and if these are granted they will act as a stay of execution.

If denied, the attorneys plan a further appeal, this also acting as a stay.

The state pardon board met this afternoon to consider Secretary of State Lansing's request for further reprieves, claiming the Mexicans were not fairly tried.

The board of pardons saved the five men at the last minute by a reprieve last May.

OFFER MADE TO WELD LIBERTY BELL SO IT CAN RING

SAN DIEGO, July 29.—The Philadelphia Board of Public Works is today seriously considering an offer by Stuart Hutcheson, a local garage man, to weld the crack in the Liberty Bell so that it will be possible to ring the bell frequently.

The offer guarantees that the welding will not injure the bell in the least.

Hutcheson says he desires to do the work as a gift to the nation.

Mayor Blankenburg writes that he has taken the proposition under advisement.

BULLETIN

LOS ANGELES, July 29.—The jury in the case of Chas. A. Elder and ten other former Los Angeles Investment Company officials, charged with using the mails to defraud, began its deliberations this afternoon.

N. Y. REGISTRATIONS

Registrations of motor vehicles in New York state between February 1 and June 15 show an increase of 188,953 against 140,218 for the same period last year.

S. A. V. I. BULLETIN

Run No. 1. Water in ditches K. L. Chicago, Q. Q2, B4, B. Y. YZ, T. Z. Will be in ditches R and V tomorrow.

Run No. 2 started at the head of the ditch this morning. It will be down as far as J. Watson's tomorrow in the main ditch.

Run No. 2 will be 30 minutes to the share. Price, 50 cents per hour.

TAG! YOU'RE IT! BALL GAME TAGS ARE BEING SOLD ON STREET TODAY

Santa Ana Young Ladies Busy 'Tagging' All Who Have Not 'Come Across'

There is but little chance for you to escape. Even if you feel that you just CAN'T go to that big Chamber of Commerce-Ladies' ball game Saturday afternoon you can at least buy a tag for 25 cents and thereby help out the Associated Charities.

The tags are being sold by eight Santa Ana young ladies today. The number will be considerably increased by tomorrow. And it should prove no effort at all for you to part with 25 cents—considering the tact and diplomacy that the young ladies use in approaching "prospects."

The big red tags are the ones that sell at 25 cents each. The green ones, which are sold only to the youngsters, sell at 10 cents each.

The tags are admission tickets to the ball game. And it will be SOME ball game, if one may judge from the promises that are being made by Manager Joe Burke of the lawyers, and by Captain Paul E. Wright of the Chamber of Commerce team.

Mayor A. J. Visel will pitch the first ball in Saturday's game and Rev. J. A. Stevenson will catch it—or try to.

HIGH JAPANESE GET INTO TROUBLE OVER ELECTION BRIBERY

TOKIO, July 29.—Viscount Kanatake Oura, home minister, has resigned as a result of a scandal, the outgrowth of bribery charges in connection with the March elections.

Simultaneously K. Hayashida, chief secretary of the House of Representatives, was jailed on the same charges.

Viscount Oura is accused of accepting a \$500 "present."

\$3000 COST TO U. S. TO PROTECT PRINCE WHILE TOURING HERE

SAN FRANCISCO, July 29.—United States secret service agents spent \$3000 protecting the Maharajah Karuputhala, the East Indian prince, during his recent visit. The expense accounts were filed today. The agents trailed the prince all over the United States.

LOCAL CITRUS REPORT

The following report on the eastern citrus market was received today by the Orange County Fruit Exchange: New York continuing very strong on Valencia; lemons unchanged. Boston—unchanged, oranges and lemons. Philadelphia—oranges, steady; lemons, doing better.

This is believed to be a good photograph of G-3, the greatest submarine in the world, built by Simon Lake in his works at Bridgeport, Conn. Mr. Lake and his superintendent refused permission to one who tried to photograph the vessel, insisting that some naval officers had told them this must not be done.

The G-3 is believed to have a steaming radius of 5500 miles, that is, she is able to cross the Atlantic and come back without refueling. She might have to be met at sea with oil to bring her to port, but she would be so near the American coast that that would not be difficult.

Though the secrecy with which the naval authorities are working makes it impossible to gain full and accurate information about submarines now building, the statement is made that the G-3 is only one of eight American submarines which are able to cross the ocean and come back, and ten more are to be launched very soon.

OPEN RAILROAD! DEMAND TO BE MADE BY U. S. ON MEXICO

WASHINGTON, July 29.—It is announced today that the state department plans immediately to make strong representations to both Gen. Carranza and Gen. Villa, demanding the reopening of the railroad between Mexico City and Vera Cruz.

WILL PLEAD FOR MEXICO IN THREE LANGUAGES

SAN FRANCISCO, July 29.—Dr. Arnold Krum Heller, a friend of Gen. Carranza will address three audiences tonight in addressing three different audiences on German conditions.

German, English and French will be the languages employed.

CARRANZAISTAS ANNOUNCE CAPTURE OF PACHUCA

WASHINGTON, July 29.—The local Carranza junta today announces that the Carranzaistas have captured Pachuca after a six-days battle.

YAGUI INDIANS TIRED OF VILLALTA CURRENCY

NOGÁLES, Ariz., July 29.—Five hundred Yaquis working in Sonora have threatened a revolt unless paid \$1 per day gold wages. The present wages are \$1.50 daily in Villalita currency, which equals three cents in gold.

BECKER CALMLY PREPARING FOR DEATH CHAIR AS HIS WIFE COLLAPSES

OSSINING, N. Y., July 29.—Unless the absolutely unexpected happens in the shape of commutation of sentence or pardon from Governor Whitman, Lieutenant Charles Becker tomorrow morning shortly after 5:30 o'clock, will die in the electric chair.

Final decision to refuse Becker a new trial was announced at 10:30 last night, and the news was conveyed to the doomed man by the warden.

Becker aged years in the few minutes after he learned his fate. Then he rallied, thanked the warden, and spent some time in prayer.

Mrs. Becker left the prison on her way to New York before the news came. At New York, as she stepped from the train, with a smile on her lips, she was met by a reporter, who told her of the decision.

Her lips trembled, her voice broke, she swayed a little, and then asked the reporter to refrain from talking to her.

Becker today is calm. He was seen by reporters this morning, to whom he said: "Tell the world that Charlie Becker died like a man. That's all I have to say."

This morning Mrs. Becker, the devoted wife, was at the prison, but had to be given medical attention.

Becker prepared today for death. On arising this morning he took his last shower bath and donned the black death garb. His civilian clothes were removed for the last time.

The prison barber clipped his hair short and shaved the round spot at the top of the skull where the metal electrode is to fit.

During this grim process Becker sat calm and cool, and apparently unmoved.

He was then taken back to the death cell, which the wardens had stripped of everything except a photograph of Mrs. Becker.

Friends of the doomed man predict that Becker will again assert his innocence as he takes his seat on the fatal chair, and that he has arranged to leave a written statement explaining the case.

Governor Whitman declares he will not intervene; that if he had the faintest belief Becker was innocent he would pardon him, but that there is not a shred of evidence on which to base such action.

MRS. BECKER MAKING FINAL PLEA FOR HUSBAND

ALBANY, July 29.—Mrs. Becker will arrive here at 7 o'clock tonight to plead with Governor Whitman to spare her husband's life. Attorney Johnson will accompany her.

A harrowing scene is anticipated.

DYNAMITERS BLAST MIAMI RESERVOIR

PHOENIX, July 29.—Dynamiters today blew up the Miami reservoir, knocking a hole in the floor of the concrete basin. Mexicans are suspected.

THE CITRUS MARKET

NEW YORK, July 29.—Seven cars oranges, one lemons sold. Both steady. Oranges averaged \$3.23 to \$4.72. Highest, Glendora \$4.85. Weather, fair; temperature, 70 degrees.

YOUTH, 19, WHO FACES GALLOWS GIVES THANKS TO CHILDREN

SAN QUENTIN, July 29.—Louis Bundy, nineteen years of age, who is under sentence to die August 23 for the murder of Harold Ziesche of Los Angeles, today issued the following statement thanking the California school children who signed the petitions for clemency in his behalf. He adds that he has about surrendered hope.

Bundy has for his cell mate Charles Oxnham, sentenced to die for the murder of William Alexander, a capitalist, also of Los Angeles.

The two prisoners talk baseball and war in an effort to forget the shadow of the gallows hanging over them.

U. S. BREAK WITH GERMANY FEAR. AS DIPLOMATS STUDY CRISIS IN HOPES OF SOLUTION

BERLIN, July 29.—There can be no doubt that the German-American situation here is regarded as extremely serious.

Ambassador Gerard has adopted a firm attitude and is standing rigidly upon the United States' position as outlined in the latest note.

Feeling at the American embassy is very grave.

WASHINGTON OFFICIALS SAY SITUATION MOST GRAVE

WASHINGTON, July 29.—German negotiations are at a dead lock and the situation is precarious.

It is agreed that every effort should be made to break the deadlock. One remedy proposed is to induce Britain to abandon her "starvation blockade."

It is persistently rumored that this step is contemplated.

Secretary of State Lansing is drafting a note asking Germany to pay damages for the sinking of the Lellanaw.

Secretary of State Lansing and Ambassador Gerard are today exchanging communications regarding the notifying of German submarines whenever an American vessel sails, so as to prevent attacks.

The plan contemplates cabling the sailings to Gerard, who will notify Wilhelmshaven, which will inform the submarines by wireless.

AUSTRIANS DESTROY ITALIAN RAILWAY AND STATION

BERLIN, July 29.—An official statement from Vienna regarding the Austrian raid on the Italian railway Tuesday said several locomotives were destroyed and the power station blown up.

Aeroplanes bombarded the Ancona barracks, railway station and military store houses and fired a napalm tank.

LOYD GEORGE MAKES PLEA FOR PERILED BRITAIN

LONDON, July 29.—Lloyd-George today addressed 2000 delegates representing the operators and coal miners of Wales.

He impressed his hearers with the fact that Great Britain was gravely imperiled.

He said no price was too great to pay for victory and urged the coal production be speeded up.

He said it was necessary to appeal to all classes to work for victory.

AVIATOR AND RIFLEMAN DUEL AT TOMB OF JULIET

ROME, July 29.—An Austrian aviator and Italian rifleman today battled around the tomb of Juliet, the historic Shakespearean character. One of the aviator's bombs nearly hit the tomb. The Italians volleyed as the aeroplane swooped and discharged many bombs and escaped.

RUSSIANS HALT GERMANS BEFORE WARSAW

PETROGRAD, July 29.—The Russians have defeated the Germans before Warsaw. It is announced today.

Gen. Von Mackensen's force attacked vainly. The Slavs rallied and captured three villages, taking 1500 prisoners.

The Russians also won a cavalry

BIG SINGLE TAX MEETING WILL BE HELD IN FAIR CITY

BY EDWARD P. E. TROY
SAN FRANCISCO, July 29.—Responses to the preliminary announcement of the International Single Tax Conference in connection with the annual meeting of the Joseph Fels Fund Commission in San Francisco August 23, 24 and 25 of this year assure a meeting of extraordinary interest. Among the Single Tax leaders who will be present and participate in this conference will be Mrs. Mary Fels of Philadelphia, Daniel Kiefer of Ohio, Stanley Bowman, manager of The Republic, Chicago; W. S. U'Ren of Oregon, Oliver T. Erickson of Washington, Lincoln Steffens and Bolton Hall of New York, James W. Bucklin of Colorado and L. J. Quinby of Nebraska. The program will be planned so as to bring out the progress of the Single Tax movement in all parts of the world. On account of the attendance of representatives of practically all nations at the Panama-Pacific International Exposition, it will be possible to secure speakers representing all parts of the world, making this one of the most notable gatherings of representatives of the Single Tax movement ever held.

Attendance at the conference will be of particular interest because San Francisco was for many years the home of Henry George. Some who knew him when he was writing "Progress and Poverty" will take part in the conference, and personal reminiscences of the beginning of the work to which he gave his life will be features of the program.

It is especially appropriate that this

UNCEASING MISERY

Some Santa Ana Kidney Sufferers Get Little Rest or Comfort

There is little sleep, little rest, little peace for many a sufferer from kidney trouble. Life is one continual round of pain. You can't rest at night when there's kidney backache. You suffer twinges and "stabs" of pain, annoying urinary disorders, lameness and nervousness. You can't be comfortable at work with darting pains and blinding dizzy spells. Neglect these ailments and serious troubles may follow. Begin using Doan's Kidney Pills at the first sign of disorder. Thousands have testified to their merit.

Proof in Santa Ana testimony: Mrs. Cynthia M. Madison, 901 E. Sixth St., Santa Ana, says: "I was feeling very poorly in every way. My kidneys showed signs of weakness. Doan's Kidney Pills helped me and gave such satisfactory results that I have never hesitated to speak a good word for them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Madison had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

conference should be held in California, because the Single Tax is in actual operation in the irrigation districts of the state. These districts are municipal organizations for the purpose of supplying water to large areas. Over 1,000,000 acres are included in such districts, and in nearly all of them revenue is derived solely from assessments levied upon the land according to its value, without regard to the improvements or growing crops upon it. Representatives of these districts will attend the conference and report upon their experience with the Single Tax.

A local committee has been organized, of which former Congressman James G. Maguire is honorary chairman; James H. Barry, editor of the San Francisco Star, chairman; Isidor Jacobs, treasurer, and Clarence E. Todd, secretary. All who expect to attend the Conference are requested to notify the secretary of this committee, at 150 Pine street, San Francisco, who will reply to all inquiries regarding the conference or hotel accommodations for those interested in it.

PINK ROSE, CORK AND CHEWING-GUM CLEW TO JOY-RIDERS

Register Man's Ford Taken From In Front of West End Theater Recovered

She wore a pink rose. She chews gum. She was one of those who started joy-riding last night in Harry Duckett's Ford.

Who was she? If the city marshal could answer that question, she would forthwith be given a quizzing.

Mr. and Mrs. Duckett went to the West End Theater last night. They drove up and left the machine near the front of the movie place in a light that made the street as plain as day. Duckett pulled out the spark-plug of the master vibrator and put it in his pocket before he went into the theater to see the things that were put on the screen to be seen.

After the show, Mr. and Mrs. Duckett walked out, and the space that had been occupied by the Ford was vacant.

The city police were informed of the theft, and Duckett and City Marshal Jernigan scouted around considerably last night without getting any trace of the missing Ford.

Duckett, who is business manager of the Register, has great faith in the power of the Register's advertising. This morning he was writing out a classified ad reading something like this:

"Lost, Strayed or Stolen—One perfectly good jingie. I have the spark-plug and want the rest of the machine to go with it. Anyone seeing this animal running around loose, please lasso it, hog-tie and telephone me. No harm done. H. T. Duckett."

His faith in Register advertising was well founded. Two minutes after the ad was written City Marshal Jernigan reported the machine found on West Fifth street.

The machine was left standing near Artesia street. The lights were still burning, all except the spotlight, the wires of which had been disconnected. The machine had not been run far. Probably a nail was used instead of a spark-plug, and the engine bucked.

Three clues were left in the machine. One was a faded pink rose. Another was two pieces of chewing-gum, and the third was a small odorless cork. The cork furnishes the most baffling mystery of the incident. Experts along those lines say it is not a booze cork, because it gives forth no smell.

The faded pink rose—in it lies the hope of detecting the persons who had the nerve to steal a newspaperman's automobile.

FEATURE STORY FOR THIS DAY BY UNITED PRESS

Said Susie Smith to Buelah Brown, Just think, my mother's hair In just one night Was turned pure white Because she had a scare.

Said Buelah Brown to Susie Smith, That's nothing, my ma's head In half a day Or less, they say, Was turned from black to red.

NEW YORK, July 23.—A touch of red seems absolutely essential to the smart dame these days whether it is a scarlet flower in the lapel of her coat, suit or sweater, a strand of red coral around her throat or a henna glint in her hair. Indeed, the henna glint is as necessary an adjunct to the finished product of the well turned out woman as is her pair of stays. You simply can't see a well coiffured head nowadays without seeing red.

These burnished coppery tresses are achieved by rinsing the hair after the shampoo in an herb or henna wash. If you wish to go the limit and emerge with your crowning glory absolutely encased in the obliging hair dresser will give you what she calls an herb or henna paste.

Now Comes the Season's Great Event--Smart Shop's

BLUE PENCIL SALE

—This sale has been given over to Mr. Samuel Friedman who was here last year and you all no doubt remember the wonderful bargains that he gave you. This sale will eclipse the one last year, he says you can not afford to miss it.

—In this great money saving event, you will find a complete line of the best that the market affords, including the early Fall models just received.

MR. FRIEDMAN SAYS:

"This is to be nine days of wonderful buying opportunities, given over to unusual values, to the end that it may win even more friends and that more and more people may come to know the SMART SHOP is a store complete in itself, and how earnestly it is striving to live up to that SMART SHOP IDEA, 'THE SATISFACTION OF THE CUSTOMER.'"

—Mr. Friedman has gone through the entire stock and rearranged it to better accommodate the eager buyers this sale is certain to bring out.

—The sales manager has been instructed to mark everything at prices that make buying irresistible and this he has done, reserving nothing from the merciless price cutting.

THINK WHAT THIS MEANS TO YOU!

Just a Few Prices to Show Wonderful Values Offered

Three Great Events--The Sensation of the Season

\$7.50 and \$10 Dresses and Coats \$4.75

—Lot of dresses and coats were never offered so early in the season at a price so enticing! Their materials alone would cost you more than \$4.75. Voiles, crepes, linens, plain and novelty fabrics—numerable styles and colorings—you must see them all tomorrow.

\$12.50 to \$15 Coats and Dresses \$8.75

—Only a few of a kind! Would take a page of space should we attempt to describe even half of them. Last week we sold their companions at \$12.50 and \$15.00—you'll be glad to save one or two at \$8.75 tomorrow.

\$25 to \$35 Coats and Dresses \$14.50

—Cleverly designed models that are different from average summer frocks. But the Manager says they must be cleared away immediately—and all because summer is a month old. Seems strange, doesn't it? But it's one of the ways of Friedman. Profit by it tomorrow.

\$15.00 to \$18.75 Suits

Medium and Light Weight Materials

—There are just about 50 high-grade suits in this lot. Handsome serviceable suits for now and later including the ever-popular Norfolk models, belted, military, plain tailored and semi-fancy effects of wool poplins, men's wear serge, whipcord, coverlets, corduroy, gabardine, silk poplin, shepherd checks, etc. New colors and patterns; \$15, \$16.50, and \$18.75 suits, only \$9.00.

\$25.00 Novelty Suits \$12.50

—The season's latest style suits with wide flare skirts of white gabardine and jacket of novelty cretonne with two large pockets, collar and cuffs of white gabardine and trimmed with pearl buttons. All sizes for misses and women.

Extra Special \$12.50 White Sport Coats at \$6.95

—Just received this lot of coats and when I put them at such a ridiculous price Mr. Schenkein said they will not last but a very short time. So don't hesitate. Made in the newest styles and in a weight that make them suitable for fall use.

Lingerie Blouses 50c

—Voiles, Organdies and Swiss, handsomely lace and embroidery trimmed—styles well dressed women like; sizes 36 to 44. Values up to \$2.50.

Silk Corduroy Skirts Values to \$8.50, Special \$5.50

—Manufactured of a high class of material in styles as those shown in New York. These are beauties and you must see them to appreciate their value.

House Dresses, 99c

VALUES UP TO \$2.50
—Well made house dresses of striped and checked gingham, with collars and cuffs of plain material—well cut and finished—a special lot for this sale.

Waists Reduced

—Smart Shop could rightfully be called "Blousedom" with its stock of waists repriced for this great event.

\$1.50 and \$1.95 lines of Lingerie Blouses at 95c.

\$3.95 and \$5 Silk and Lace Blouses \$2.95

—Of Voile and Organdies in Lace-Trimmed or Tailored styles.

—One or two of a kind; semi-tailored and fancy styles.

\$2.95 and \$3.95 silk, lace and lingerie Blouses \$1.85

\$2.50 and \$2.75 cool, dainty lingerie Blouses \$1.45

\$5.00, \$5.95 silk and lace Blouses, tomorrow \$3.95

Silk Petticoats Are In Style Again

—Just received 200 petticoats that are marked at one-third of their regular prices:

\$2.50 Petticoats\$1.69
\$3.00 Petticoats\$1.98
\$5.00 Petticoats\$3.39

Leather Handbags at Big Savings

—This is a close out of all bags in stock and the entire stock has been marked at prices that force sales:

\$2.00 Bags95c
\$3.00 Bags\$1.68
\$5.00 Bags\$2.68

Sale of Middy Blouses \$1 Values at 50c

and all other middies in proportion as follows:

\$1.25 Middies 75c \$1.50 Middies 95c

\$2.00 Middies ... \$1.50

The Famous Swim-Easy Bathing Suits

—If you wish to appear attractive and comfortable, be sure and wear the popular Swim Easy, at \$1.50 to \$3.50.

Important Sale

—Semi-Made Tailored Skirts at half price. An unusual purchase enables us to sell these greatly below their value.

ARREST PUTS AN END TO MAN'S MOTOR TOUR

Wanted For Embezzlement
Here, to Answer For Bad
Checks In Sacramento

Starting from Santa Ana on a motorcycle that did not belong to him, Bert H. Mason, a solicitor, hit the high spots from here to Sacramento. At Sacramento he is accused of having floated some worthless checks. His stay in Sacramento was comparatively brief. He headed for San Francisco, and put the motorcycle into a shop for repairs. Before he could get it out and be gone, he was arrested. Thus was his motorcycle tour of the great state of California brought rudely to an end.

Mason lived in Santa Ana for about three months until he decided to go forth on Fred Champion's motorcycle, which he had borrowed, and have a ride over the state. When he left here he was living at 502 East Chestnut. One day he borrowed Champion's motorcycle, and away he went. He also had one of Ben Turner's typewriters, which he had rented. He failed to return the machine to Turner before he departed. He found good use for the typewriter. He struck a lady who wanted a guarantee that his bill would be paid. He left her the typewriter as security, and she has it yet.

When the San Francisco police took Mason to jail he humbly confessed his transgressions. He told the police whose motorcycle he had been riding, where it was and also asked them to tell Champion that there is an \$8 repair bill against it in the garage in San Francisco where it now is.

Mason has no relatives here. While here he stated that he had a wife from whom he had separated in San Francisco.

TO APPOINT NEW CITY GARDENER NEXT MONDAY

Incumbent Is An Alien; Ap-
pointment of Successor
May Be Temporary

At an adjourned meeting of the City Park Commission to be held Monday afternoon at 5 o'clock a city gardener will be at least temporarily appointed to succeed W. J. Van Der Bruggen, an alien.

A meeting of the commission was held this morning. City Attorney Scott stated there is a state law against paying out any public money to an alien. Last month the city council audited a \$3.5 bill for Van Der Bruggen for work in the city park. Acting upon a report given by Trustee Maryatt by former Gardener E. R. Halesworth, that Van Der Bruggen is not a naturalized citizen, the city trustees referred the matter to the park commission. It was to look into the matter that this morning's meeting was held.

Van Der Bruggen intends to take out his final papers of naturalization on October 1.

The members of the City Park Commission are Fred Rafferty, J. G. Quick, George W. Minter, Mrs. Andrew Getty and Mrs. J. H. Rankin. As Rafferty and Minter could not be present at all the meeting this morning it was decided to adjourn until Monday afternoon.

"Monday evening we will appoint a man to take charge of the city park," said Quick. "This may be only a temporary appointment. At any rate, the matter is being satisfactorily adjusted."

It was brought out that Van Der Bruggen took out his first papers nine years ago in Illinois. He had neglected to take out his final papers. He thought he would have no difficulty, upon moving to this city, in getting his final papers. He found, however, that he would have to be a resident of the state for at least one year before this could be done. On October 1 of this year Van Der Bruggen will have been in California one year.

NEWS LETTER OF BOLSA SECTION

BOLSA, July 29.—Mrs. G. A. Walker, Misses Valentine Heil and Flora Heil returned Monday from a two-weeks' vacation at Santa Ana.

Mrs. Scott Boyd of Hanford is visiting at the home of her brother, J. A. Ross.

Mr. and Mrs. G. A. Walker of Santa Ana and Mr. and Mrs. A. F. Walker expect to leave today for a two-months' trip to the northern part of California. They will make the trip in G. A. Walker's Hudson.

Tracy Willey is visiting with his grandparents at Santa Ana.

Miss Valentine Heil is suffering from a severe attack of poison-oak.

H. A. Caird visited at the J. A. Ross home this week. He is on his way home to Wilcox, Ariz., from the fair at Santa Ana.

Miss Christine Shiffer of Los Angeles, who has been at her parents' home for the last ten days, entertained a few of her friends Wednesday evening. Games and dancing were enjoyed. Those who enjoyed this pleasant event were Misses Laura Harding, Pearl Rusk, Ethel Heil, Flora Heil, Leona and Levena Ross, Messrs. George Harding, Wil. Harding, Ralph Ross, Adam and Martin Shiffer.

SUMMER ACHES AND PAINS
That backache or stiff muscle that cannot be explained on account of having "sat in a draft and caught cold" is more than likely the result of weakened or disordered kidneys.

Poley Kidney Pills promptly relieve backache, sore, swollen or stiff muscles and joints, rheumatism, and sleep disturbing bladder ailments. They put the kidneys in sound, healthy condition, and help them eliminate urine and other poisons from the system. Rowley Drug Co.

YOUR COUGH CAN BE STOPPED
Using care to avoid draughts, exposure, sudden changes, and taking a treatment of Dr. King's New Discovery, will positively relieve, and in time will surely rid you of your cough. The first dose soothes the irritation, checks your cough, which stops in a short time. Dr. King's New Discovery has been used successfully for 45 years and is guaranteed to cure you. Money back if it fails. Get a bottle from your Druggist; it costs only a little and will help you so much.

Dr. C. V. Billingsley, Osteopath, 402 Spurgeon Bldg. Office Phone, 868; residence, 152-J, Orange.

NEW RATES TO BE GIVEN FOR PUMP POWER

(CONTINUED FROM PAGE 11)

Associated committee.
Armistage reported that Capt. Richer of East Newport is drawing a map of Orange County in detail that Armistage hopes will be accepted when completed.

Ask Appropriation

Smart reported that the Interior Counties Freight Bureau proposed to have an expert check up on freight rates, and Orange County's share of the cost would be \$50. The supervisors were asked to appropriate the money.

T. B. Talbert of Huntington Beach as chairman of the manufacturing committee pointed to the success of the Pacific Coast Linoleum & Oil Cloth Company as indicating the possibility of success of various factories that might be started here. He said Orange County should have more such factories, and with the coming of Newport harbor greater opportunities would be at hand.

A. S. Bradford of Placentia as chairman of the harbor committee reported the coming of the Washington committee on August 7.

Railroad Crossings

S. W. Price of Bolsa said that Gustav Stern of Fullerton, chairman of the good roads committee, proposes to make a fight to get the railroads of the county to make their crossings better. It was stated that many crossings all over the county are in bad shape.

Secretary Metzgar asked that representatives of various sections make a list of the bad crossings and send them to Stern, who was ill and could not be present last night.

They Viewed Factory

Last night's meeting was held in the oil cloth factory at Huntington Beach, T. B. Talbert, president of the factory, heading the bunch showing the visitors around.

The factory was kept running so that the actual operation of oil cloth making could be seen. First came the machine that mixes clay, oil and the other materials that go into the surfacing of the cloth, shipped in 1000-yard rolls from the cotton factories.

Then came the machine that puts the mixture on. Cloth runs in at one end and comes out at the other smoothly covered. Apparatus takes the cloth up into huge dryers to be dried.

Next comes a printing machine that gives the oil cloth the various patterns. Besides these are other machines

that do remarkable work. A big cutting room also contains oil cloth ready for shipment. The factory has developed a good business, and is growing very rapidly.

Splendid Supper

A splendid supper was served by the Woman's Club of Huntington Beach. Each guest was provided with a bib of oil cloth, upon the back of which was printed a unique menu. The tables were covered with Huntington Beach-made oilcloth. From the cocktail, consisting of fruits sliced in cantaloupe down through fish and fried chicken to ice cream, the banquet was one enjoyed.

Attorney L. A. Cronk of Huntington Beach gave the address of welcome, and Attorney H. C. Head of Santa Ana gave the response, telling of his first visit to the Huntington Beach section in 1876, in the days of the thespians.

A pleasing original poem, "An Ode to California," was read by Miss Cornish of Huntington Beach.

The next meeting of the Associated Chambers will be held at the Palisades Hotel.

BILLY SUNDAY WILL START MEET SUNDAY

SAN FRANCISCO, July 29.—Billy Sunday, the evangelist, arrives here tomorrow, and on Sunday will open a series of revival services.

RIVERS AND HARBORS MEN SEE GREAT FAIR

SAN FRANCISCO, July 29.—The National Congressional Rivers and Harbors Committee today toured San Francisco Bay, visited the exposition, attended receptions and luncheons. They will remain three days.

WHEN HOT WEATHER OPPRESSES

When you suffer from a feeling of oppression, when a naturally keen and alert brain seems dull and stupid, when bodily strength seems lacking and you are inert and languid—do not blame it altogether on hot weather. The hot sun will not effect you half so much if the bowels are regular and the liver active and healthy. Foley Cathartic Tablets are the ideal remedy for indigestion and constipation. They give stout persons relief from that uncomfortable bloated and congested feeling. Rowley Drug Co.

Constipation Causes Most Ills
Accumulated waste in your thirty feet of bowels causes absorption of poisons, tends to produce fevers, upsets digestion, you belch gas, feel stuffy, irritable, almost cranky. It isn't you—it's your condition. Eliminate this poisonous waste by taking one or two Dr. King's New Life Pills tonight. Enjoy a full, free bowel movement in the morning—you feel so grateful. Get an original bottle, containing 26 pills, from your Druggist today for 25c.

—Ladies' Suits to measure, also alterations. Chas. Land, 306 Bush St.

Dr. Jacobs, Santa Ana Painless Dentist, 102 1/2 East Fourth, Phone 253.

HARBOR PLANS ARE ENDORSED UNANIMOUSLY

(CONTINUED FROM PAGE 11)

going ahead with the harbor."

During the discussion it was brought out that the visit of the Rivers and Harbors Committee of the House of Representatives on August 7 is of vital importance. There will be twenty-four in the party. Not over 100 can be seated for luncheon at the Palisades Hotel. Representatives of every section of the county will be there.

Capt. Kelley of Delhi, who was a pilot in Newport Bay thirty years ago, interested his hearers greatly in a talk on the harbor. He said that before coming here he was engaged in a New Zealand bay, where conditions are the same as at Newport, rocks on one side, sand on the other. There were no knockers, but the improvement went ahead. Now the harbor is a big success, and pays for itself with wharfage receipts.

"I have all confidence in this harbor," said he. "I have sounded the entrance repeatedly in recent years, and I find forty feet of water in the two channels just as I did thirty years ago. With jetties, the entrance will scour itself out. The same boats that came in twenty-five years ago can come in now on proper high tide."

Linn L. Shaw of Santa Ana made the endorsement motion, one urging that the petitions be circulated at the earliest possible moment.

"This bay," said he, "is the county's greatest asset. Some time ago, I tried to get a shoe-string strip from Santa Ana with an idea of getting Santa Ana to build the east jetty. However, I found that the people as a whole do not understand or realize the wonderful benefit that a harbor will be. Any person of intelligence who goes over that bay cannot do otherwise than admit it has great possibilities as a harbor."

"Publicity is what you want from now on," said R. L. Bisby of Santa Ana. "I helped put through the harbor at Long Beach. Let me say that when the first boat came in with lumber, the price of lumber dropped \$5 a thousand, and it remained down. The greatest building period Long Beach ever had followed the harbor. Go to it, and get that harbor."

Shaw's motion was carried unanimously. The petitions will be circulated in every community of the county.

New white wash skirts, just received by express. Pique skirts at \$2.50 each at Gilbert's. Take the elevator.

ANTI-VIVISECTION IN CALIFORNIA

An incident highly instructive in its bearings on the struggle to preserve freedom of medical research in the United States occurred during the recent session of the California legislature. The anti-vivisectionists introduced a bill providing for a commission of inquiry into laboratory conditions in the state. As usual, the advocates of the measure supported their claims by lurid tales of atrocious cruelty to animals at the hands of experimenters, and they took care that the proposed commission should consist largely of persons known to be antagonistic to the use of animals for experimentation. Such legislation has been repeatedly advocated in eastern states, but has always been refused serious consideration by legislative bodies. The partisan character of the proposal offered in California was apparently recognized, but, instead of objecting to it on that ground, interested members of the legislature suggested a compromise. A substitute measure authorizing officers of humane societies to inspect and supervise laboratories was introduced, and with very little discussion it passed both houses. The ease with which a measure of this character can receive favorable legislative attention is surprising. The bill as passed would give to any anti-vivisectionist who wished to form a humane society with himself as president, the right of unlimited search without warrant—a right not possessed even by the constituted officers of the law—the police, the constables and the sheriffs! Furthermore, the inspectors thus provided for would be persons without any required training whatsoever, and they would be placed in judgment over highly trained laboratory workers who are investigating the most perplexing developed structures and the most involved and entangled processes in Nature. One needs only to glance at anti-vivisection literature to learn how readily the untrained mind grossly misinterprets the facts of biologic observation. Inspectors wholly lacking insight into the extraordinary complexities of medical research are absolutely incompetent, and, if permitted to act, could prove only their own capacity for blundering. The harassing of medical investigators by perpetually classing them with suspected criminals and subjecting their labors to the stupid meddling of suspicious and ignorant fanatics would have been disgraceful. Fortunately, says The Journal of the American Medical Association, the bill did not become law. The words of the governor of California, explaining his refusal to sign the bill, are pertinent in every commonwealth where anti-vivisection legislation is attempted:

"The anti-vivisection law is so positively declared illegal by the attorney general that even were I disposed I could not sign it. I may add that the laws of the state of California for the prevention of cruelty to animals and the punishment of those guilty are plenary. Full authority is given to the humane officer, under the law, to obtain search warrants, enter premises, and gather such evidence as he may suspect exists. With our drastic laws, there can be no excuse for those who insist on cruelties are practiced upon animals for permitting these cruelties to continue or those practicing the cruelties to go unpunished."

KEEPING SUMMER HOTEL

The summer hotel business is one of the great industries of the country. Hotel life will always appeal to millions of people who wish to avoid housekeeping cares on their vacations.

Running one of these establishments must be a big problem. The foundation is good cookery and clean and comfortable rooms. Yet that is far from the whole thing. It depends a lot also on the kind of social life found there. With a great many people the big attraction at these resorts is meeting new faces and pleasant people.

A hotel may have all the essentials of comfort, and yet have a frosty social atmosphere, so that guests will shake the dust of the place off their feet, never to return. A few managing and bossy women often spoil the atmosphere of such a place. Having a certain social ease and experience, they undertake to run the diversions. They favor people that appeal to them as having money or good position. Others are cast into outer darkness,

and pass their whole outing in a feeling of social isolation.

It must take a lot of tact to handle all these elements. Certain types of people do not care to mingle with others. Others are hungering for friendly words and pleasant contact with new people. The successful innkeeper must study carefully the type of people he seeks to attract, and see that each meets what it wants.

People return year after year to a place they like. Every inn has its own temperament and personality, an atmosphere created by its habits. Going to a new hotel is very much of a gamble. The man who wants quiet and rest for his nerves is apt to strike a place where the young folks are tangoing until 1 a. m. The woman who wants social converse finds some frozen clique who do not look at a person until she has resorted to the place for several years. The hotel keepers know all about these predicaments. Perhaps it is not surprising that so many summer hotels burn down after the season is over.

Gilbert's Great Once-a-Year bargain sale now on. You can save at Gilbert's dry goods store. Last week of sale. Better hurry.

HOW TO KEEP WELL

By CHAS. G. PERCIVAL, M. D.
[A Series of Articles.]

The most frequent cause of suffocation in children is by choking on pieces of food, or other objects. In such cases it is a matter of life and death to apply the right kind of first aid instantly.

Certain substances are likely to cause choking in children. Rectangular-shaped candies, as the sharp corners prevent expulsion when the candy is sucked into the throat. Many cases of choking on this type of candy have been recorded. A smart slap on the back between the shoulders will usually help to expel the foreign object. If this fails, hold the child head downward for an instant and smack the back sharply. Should this prove ineffective, the offending object must be removed with the finger. To do this the mouth should be wedged open by some object placed between the back teeth to prevent biting. A cork or tightly wadded handkerchief. The finger should then be thrust gently down one side of the throat as far as possible over the base of the tongue so as to get behind the foreign body. Do not push the finger down the center of the throat hurriedly, as this may wedge the obstacle tighter and injure the delicate throat structures, with serious consequences later. The finger pushed gently into the back of the throat often causes vomiting. When this occurs, the difficulty is usually solved, as vomiting expels the foreign object.

Choking on fish bones is distressing, but is rarely dangerous, as these bones are usually removed or dissolved, and do not cause suffocation. A few mouthfuls of coarse food, such as bread crust or gruel swallowed in gulps, will usually remove the obstruction, though the sensation that something is still in the throat remains for some time.

The poor man is always in better physical condition than the nobleman. Crookshank, in a recent article in the British Journal of Diseases of Children, lays stress on what he calls biological value of food. He says: "The wife of a cottager is better fed biologically on whole meal bread, even though black, on fresh milk, even if skimmed; on home-made cheese, even though sour, and on oatmeal, even if savoured with salt only, than is her town-dwelling sister on frozen mutton, tinned tomatoes, condensed milk and packet tea."

When the body is in good condition keep it in good condition by denying the appetite what has once injured the body. One can do much for himself by eating the right thing and not too much of it, and by leaving alone the wrong thing and all of it. He can do more than doctors can do for him when he is flat on his back in bed.

Now that the summer is here eat vegetables. Let the garden be your medicine chest. Call in Dr. Garden and let him look to your own slight ailments. If you are wakeful eat lettuce, for affections of the skin and for yellow skin, eat onions. Onions are also good for colds, coughs, and scrofula. For a torpid liver eat freely of asparagus. If the bowels are diseased try blackberries. If nervous and irritable eat plenty of celery. For constipation eat fruits, ripe and healthy fruits. Fresh fruits are good.

Questions Answered
A. B. asks: "What is this Russian oil treatment for indigestion and constipation? What kind of oil is Russian oil?"

Answer: Russian oil is a refined paraffin oil imported from the Russian oil fields. The American paraffin oil can be used. Paraffin oil has recently gained great popularity in the treatment of constipation and has largely replaced castor oil, which has been used somewhat indiscriminately for several centuries. In certain dyspeptic disorders, it is found that small doses of these oils act beneficially, and about equally well. In cases of malnutrition with chronic diarrhoea small doses are often effective, also in "bilious attacks," and hives or eczema, accompanied by dyspeptic symptoms. In such cases, the lack of taste of paraffin oil gives it an advantage over castor oil although in other respects, it is no better. Many think that paraffin oil may be used generally as a substitute for castor oil in cases where the other is known to be efficacious, and that the use of castor oil is absolute. Such is not the case, however. Paraffin oil is an excellent remedy for certain forms of chronic constipation, and to correct this dis-

Entrance to a Vast Exhibit Palace at Panama-Pacific Exposition at San Francisco In 1915

THIS photograph shows the great western portal or entrance way of the huge Palace of Food Products. The half dome is known as the Half Dome of Vigor and is 113 feet in height. Brilliant, riotous colors are employed in the mosaic in the vault of the half dome, which was designed by Jules Guerlin, America's most celebrated decorative artist.

order may be taken repeatedly for a long period accompanied by internal bathing.

Castor oil on the other hand, is not a suitable remedy for chronic constipation. Its principal use is for removing irritant material from the bowels, particularly in the beginning of acute inflammatory conditions. It is also useful in relieving the bowels when overloaded temporarily. It should not be given in laxative doses, frequently repeated, as paraffin oil is used.

D. J. M. writes: "What is the most nutritious, coffee, tea or chocolate? Answer: Chocolate, though the least popular, is the most nutritious, while the others are merely stimulants. Coffee has been the favorite beverage with soldiers for more than a century, because it lessens the strain of fatigue by stimulating the nervous system. Tea has almost precisely the same effect, and for the same reason. Because it contains caffeine. Chocolate came into its own in the present war and has taken its place at the head of the list as an emergency ration, capable of supplying vital energy to the system instead of mere nerve stimulation. It contains a stimulant, but does not tend to produce sleeplessness as does caffeine. Chocolate contains a high percentage of the two substances necessary to life (starches and fats) in a most condensed and palatable form. Also about 5 per cent proteins, which is the third element necessary to perfect nutrition. It is therefore almost a complete, as well as a well balanced ration; and, since the soldiers' chocolate is now made with a correct amount of protein incorporated in it, this ration represents an ideal food in condensed form. A man can live for a long period and keep in perfect health, subsisting on this "emergency chocolate" alone. Moreover he can carry several days' supply in his pockets. Tea, coffee, and chocolate were all introduced at about the same time and there has been much speculation as to why chocolate is the least popular, although the most worthy of these three substances. The fact is that tea and coffee contain the stronger stimulant. Strong stimulants always make rapid headway in civilized countries. All three should be regarded as drugs. Good and useful drugs, but drugs. Of the three, chocolate is the most valuable. Tea and coffee to those who do not use them habitually are valuable as vital stimulants in times of need."

Doing Good Work

The Fidelis Class of the Evangelical Sunday school held an enjoyable meeting yesterday afternoon with Mrs. William C. Hofer of Santa Clara avenue.

Roses and Shasta daisies prettily decorated the cozy rooms, where the company chatted as the members sewed on quilts to be given to needy families.

A short business session was also held and the busy workers were refreshed with ice cream and cake, after their needlework had been laid aside.

Gilbert's Great Once-a-Year bargain sale now on. You can save at Gilbert's dry goods store. Last week of sale. Better hurry.

HOUSEWIVES ARE TOLD HOW TO KEEP MEAT UNTAINTED

WASHINGTON, July 29.—To aid the housewife in keeping meat untaunted in hot weather, the Agricultural Department suggests two things, ice and cleanliness.

For many families a refrigerator is obviously out of the question, but it perhaps better to have no refrigerator than a neglected one. Merely to wash it out occasionally does little good; it should be thoroughly scalded once in awhile, in particular the drain. This, if overlooked, is apt to harbor fungus growths which may spread to the wood. On one occasion a man applied to the department for an explanation of the bright red color acquired by meat in his refrigerator. Examination revealed a fungus growth due entirely to the condition of the refrigerator. Growth of this kind do not always advertise themselves so prominently and there may be much evil in an ice box that the eye cannot detect.

If the refrigerator drain is not thoroughly cleaned, moreover, it is likely to become choked, the water is not carried off quickly enough and little pools are left standing in the interior. Dampness is one of the most favorable conditions for bacterial growth. An ice box in this state will not protect food long. It is, in fact, a wise precaution to wipe the interior of the refrigerator every day with a dry cloth.

The temperature of the average refrigerator is higher than most persons suppose and in those households where a regular supply of ice is not obtainable a cool cellar, a spring house or

the depths of a well may serve somewhat the same purpose. On farms where there is an ice house the meat may be placed in some form of closed reainer and buried in the ice.

In any event the meat must be carefully screened from flies.

The danger from infection from these pests has been pointed out many times, but familiarity breeds contempt and they still persist. The fly not only does the meat itself no good, but it may readily deposit upon it some infection, which is carried in turn by the meat into the human system. Some flies will deposit their eggs on the meat and these in a short time will become maggots and the meat is "fly blown."

Much sickness that is popularly ascribed to ptomaine poisoning or to bad food in general is really caused in some such way as this. Meat in itself is perfectly wholesome, acting merely as a mechanical carrier for the germs which cause the trouble. "Germs" which grow in food and cause illness grow very rapidly, particularly if the food is a little warm, and are not destroyed unless the food is well cooked before serving. Simply "warming up" is not sufficient, as was found in a case of illness recently reported.

Certain kinds of food—creamed chicken, or custard, or warm vegetables, for example—are excellent culture mediums for bacteria which may have been introduced into them by accident. For this reason it is a safe rule to have as short a time as possible intervene between the preparation of food and its consumption.

MANY CARS ARE IN STATE OF MONTANA

Never before in the history of Montana have the people been more prosperous and never before were indications of future prosperity better. As a result the office of the secretary of state is flooded with applications for motor car licenses. The average is about fifty per day and dealers assert that this will greatly increase when the present "bumper" wheat crop is threshed. There are now something over 12,000 motor cars in daily operation in Montana, which is a very creditable showing when the population of the state is considered.

MISSOURIANS BOOST FOR IMPROVED ROADS

Definite steps were taken July 9 for the immediate improvement of the National Old Trails highway across Missouri from Kansas City to St. Louis. A meeting was held at Kansas City to devise methods for raising funds to help build the road. Reports from many counties were to the effect that arrangements had already been made for building their sections, but in some districts the land is not able to stand the necessary tax, and general funds must be raised to guarantee that the entire highway will be improved.

Doings In Social and Club Circles

DELIGHTFUL MEETING

Fidelis Class Enjoys Outing at Hospitable Country Home

The Fidelis Class of the First Baptist Church enjoyed an all-day meeting yesterday at the home of Mr. and Mrs. Harvey Ritner, near Tustin.

Sixty-one mothers and children were seated at one long table under the spreading pepper trees at noon-time, and after the bountiful lunch had been enjoyed a short business meeting of the class was followed with an interesting program on "The High Cost of Living." A valuable and instructive paper on the cause of this condition was read by Mrs. E. D. Tolmes and a humorous reading by Mrs. L. Bybee was greatly enjoyed.

The cure for the high cost of living was presented by Mrs. Frank Trickey and Mrs. G. P. Hill, who gave the ladies very helpful suggestions on how best to economize in the grocery line, both in buying and cooking. Mrs. Holbrook very cleverly told the ladies how to make over to best advantage and utilize all on hand before buying new. A general discussion of the subject followed.

All enjoyed the day hugely and returned home late in the afternoon, hoping for more all-day meetings.

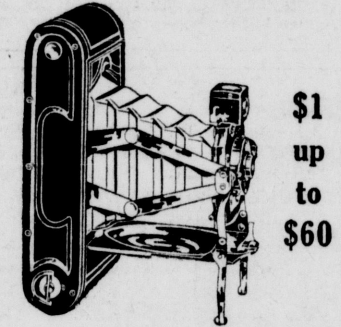

All who attend the social given tomorrow by the South Side Methodist Church may be assured of an enjoyable evening as well as helping in a good cause.

An entertaining program will be given by members of the Epworth League of the First M. E. Church, and ice cream and home-made cake will be served during the social hours.

Delightfully Entertained

Mrs. Firman Coar of Herrin, Ill., who has been the house guest of Mr. and Mrs. J. P. Baumgartner for the past ten days, went to San Diego today for a week or ten days. While here Mrs. Coar was shown over Southern California quite extensively by her hosts. Frequent motor trips to the seashore included Newport, Balboa, Huntington Beach and Long Beach. Last Friday, a party was made up for a trip to Pasadena and the Mission play at San Gabriel, including Mr. and Mrs. Baumgartner, Mrs. Nellie Doak and Miss Mary Lida Doak of Riverside, and Mrs. Coar. On Tuesday of this week Riverside was visited by the same party except Miss Doak. Mrs. Coar, who is Mr. Baumgartner's cousin, will probably stop here a few days on her way to San Francisco.

THAT DOLLAR TEA

Members of Missionary Society Enjoy Hospitality of Miss Paul

Miss Linda Paul was hostess at the annual dollar tea of the Woman's Missionary Society of Spurgeon Memorial M. E. Church, South, yesterday afternoon. As always when entertained by this genial, hospitable lady, every one had a royal good time. The spacious rooms were tastefully decorated with pink roses, the same color scheme being carried out in the refreshments.

After a few minutes of social chat, Miss Flossie Zerman and Miss Minnie Palmer gave a piano and mandolin duet which was so well rendered that the ladies demanded an encore. Mrs. T. J. Haughton then gave her report as delegate to the annual conference, San Diego, a well written and most interesting report. Next came a novel guessing contest in which drawings to represent the names of members of the society made mirth and study. The ladies were then asked to tell in rhyme how each one made her dollar. Several responded, the shortest of these gems of poetry being written by Mrs. Madden:

I went to the chicken pen
And caught a fat hen.

The hen brought the necessary dollar. The one producing the most merriment, also the lengthiest, was by Mrs. Edward Gray:

A dress I made,
Stitched and stayed;
The waist was all shirred
And the skirt was all flared.
The length of the skirt was no trick
As Mr. Gray simply used a yard stick;
Thought it was worth a dollar
To sew the lace on the cuffs and collar.

Oh, the time it took!
You could never guess by my look.
I will wear it to the tea
And let you all see.
Got paid in pelf
For doing it myself.
I hated this dress to wear
For fear it might tear.

The president had nothing to say
Until I had turned my back away.
And I will cut shy
Of Mrs. Blakeman's eye,
And when she comes in at the door
I will drop through the floor;
And Mrs. Henry Donan
Had herself to fan.

As I passed by,
Saw a smile in the corner of her eye.
Mrs. Madden stood aghast
When she saw the dress go past,
And Mrs. Smith and Maria Hill
Who are usually very still.
Then came Mrs. McClure
Who is always so very sure;
Our own Miss Linda Paul
Who is loved by all.

And Mrs. Page
Said I ought to wear it on the stage;
And Mrs. Charley McNaught
Thought I hadn't ought.
Mrs. Wright said it was a fright,
And Mrs. Hamilton held up her hands
In horror.

For fear I would wear it on the morrow.
If you want to know anything about sewing,
Mrs. Zerman and Miss Flossie look knowing.
Now don't look stern.
For one dollar I did earn
For this Missionary Society
That is noted for its piety.
I am no poet
And all of you know it.

The refreshments were ice cream molded to represent a dollar, cake and punch, all in pink and white, and a call is extended to all former Hoosiers now in Orange county and vicinity to meet together on the above date.

A good program has been arranged and a basket lunch will be an enjoyable feature of the day.

Exit From Courthouse

On August 6 there will be some vacant chairs at the court house. Not permanently vacant, however, for those who depart from the court house on that day are to return after they have seen the San Francisco exposition and the big trees in the Santa Cruz mountains. The trip to the Bay City will be by the steamer Bear.

Those who are going are Miss Lulu Ott, deputy county tax collector; Miss Corinne Clement, clerk in the district attorney's office; Miss Myrtle Meyer, deputy county clerk; Miss Opal Davis, deputy sheriff, and Miss Binda Davis of Orange.

By the Sea

The members of the Tuesday Afternoon Bridge Club enjoyed a delightful meeting with Mrs. W. A. Huff at her cozy beach cottage at East Newport, motoring down Tuesday morning.

An appetizing luncheon refreshed the guests, after which the hours were merrily beguiled with auction bridge. Mrs. L. A. Collier won the laurels among the players, Mrs. H. T. Rutherford winning second prize. Each was presented with a beautiful cup and saucer, hand-painted by Mrs. Huff and especially prized for this reason.

Among those enjoying the pleasant day together were Mesdames J. D. Thomas, Parke Roper, C. V. Davis, L. A. Collier, M. A. Yarnell, J. I. Clark

GLOWING PLANS

New Superintendent of Junior Department Entertains S. S. Officers

The teachers and officers of the Junior Department of the First Presbyterian Church Sunday school spent a pleasant and profitable evening with the newly-elected superintendent, Herbert P. Rankin and his wife, Wednesday.

Mr. and Mrs. Rankin are gifted with true hospitality and the merry social hour over the delicious chicken supper will long be remembered by those present.

The living rooms of this attractive home were brightened by lovely bouquets of pink Anemone lilies effectively combined with sprays of plumbago, and following the refreshing repast the company enthusiastically discussed plans for the progress of the Junior Department. As this is the only Junior Sunday school department in Orange county the superintendent, officers and pupils have high aspirations in making it "shine" for the State Sunday school convention to be held in October.

Among those joining in the conference were Mr. and Mrs. Will Cowan, Mr. and Mrs. E. L. Higgins and daughter, Miss Edith Higgins, of Tustin; Mr. and Mrs. Miller, Mr. and Mrs. Jennie Bear, Misses Edith Ward, Helen McKee; Messrs. Robert Layton and Glenn Tidball.

Personals

Judge John M. Breeze, formerly chief of police of Lincoln county, Nev., is visiting a few days with his son, Leslie J. Breeze, of 409 East Fifth street.

Mrs. Russell Scott has returned from an outing at Long Beach. Mrs. Scott was accompanied home by her sister, Mrs. Glenn Day, and little daughters, Ellen and Blanche, of Shendando, Iowa, who will spend the summer here. The party is planning a trip to San Diego next week.

Supervisor H. E. Smith is slowly improving after his serious illness. He is now able to be up for a short time each day.

Misses Frances and Katherine Haun of Memphis, Tenn., who are guests at the home of their cousin, Mrs. E. S. Gilbert, will leave tomorrow for Bishop, Cal., to visit Mrs. Gilbert's parents and other relatives.

Mrs. H. D. Connell was among Santa Anans in Los Angeles today.

W. C. Lorenz will sail Friday for San Francisco on the steamer Harvard, booked by the Salt Lake Company.

Miss Sallie Reeves, the ticket seller at Clune's, who has been ill for the past two months, is much improved.

Mrs. Elizabeth M. Flagg, manager of the Meyer apartments, has returned from a ten-day trip to San Francisco. She was accompanied by members of the Fraternal Brotherhood of Los Angeles.

Mrs. E. C. Jacobson sailed yesterday on the Beaver for Portland, Ore.

Mrs. G. H. Dobson spent today in the Angel City.

Miss Cora Cusick returned yesterday to her home at Banning, after a pleasant visit with Miss Arvilla Ball.

Mrs. O. M. Robbins and daughters, Misses Edna and Doris Robbins, returned yesterday from a two-weeks' stay at San Francisco.

Mr. and Mrs. C. F. Aden of Los Angeles and Mrs. Edna Makinson of Kansas City, who have been enjoying a several days' visit at the San Diego exposition, have returned to the H. E. Smith home. Mrs. Allen and Mrs. Makinson are daughters of Supervisor and Mrs. Smith.

Mr. and Mrs. N. J. Warner and their little daughter, Miss Mildred, started today on a leisurely jaunt to San Francisco. They expect to see the country en route, and spend some time in Oakland with Mr. and Mrs. Ben H. Warner, besides taking in the big fair.

Today Mrs. Samuel Jernigan and her daughter, Miss Maydell, motored to Laguna Beach for the day with their guests, Mrs. W. I. and Misses Alta and Alva Satterfield, of Hillsboro, Tex.

FOR HAY FEVER OR ASTHMA

Many persons dread July on account of the recurrence of hay fever. Foley's Honey and Tar Compound long has been recognized as the ideal remedy for hay fever and asthma, because it heals and soothes the raw, rasping feeling in the throat and eases the choking sensation. It allays inflammation and irritation and brings about easy and natural breathing. Contains no habit-forming drugs. Rowley Drug Co.

—W. D. Baker's Bran Bread, the new health bread, made only at 214 West Fourth street.

—Dr. J. W. Shaul, 417 Hollingsworth Bldg., Los Angeles, in Santa Ana office Wednesday and Saturday afternoons, 1 until 7:30 p. m. Eye, ear, nose, throat and fitting glasses.

MAKE GOOD USE OF THOSE "EYE GATES"

Many Things Heard and Read That Are Not Appreciated Until Seen

It has long been said that "seeing is believing." The ear is not to be depended upon. It could be committed for heresy at any time. It cannot believe all it hears and on that account takes the wrong side of the question. It is never sure of anything. But the eye sees and knows. It seldom errs. It is accurate. Its judgment is dependable. The things which make the deepest impression on the mind are those that are seen; things that pass to the mind through the "eye gate" are not soon forgotten, and the "eye gate" becomes the main channel of information.

The pioneer of all learning is the eye. Young and old alike ask questions about what they see. Publishers of modern literature take advantage of this and use illustrations, so that the main points of the story or subject matter which it accompanies are made clear—illuminate it—gives to it an added interest and an educational value. It matters not how many or what kind of Bibles you may have in your home, the illustrations in the Register Bible give to it an individuality that at once makes it the only real reference book in any collection of Bibles.

The Illustrated Bible distributed by the Register is bound in genuine limp leather, stamped in gold, printed in large readable type on a fine quality of paper. It contains educational help, marginal references, self-pronouncing text and colored maps. With the six hundred magnificent illustrations which were prepared for this work at an expense of \$50,000, are also full-page plates from the world-famous Tisot collection, so it becomes a work of art not to be excelled.

For a short time the Register will distribute this grand educational work to its readers, and everybody in Santa Ana and vicinity should avail themselves of this rare opportunity. The educational certificate is printed elsewhere in today's issue. Clip it now, before you forget it.

Vudor porch shades and Bamboo porch shades give absolute privacy and shut out the glare of the sun, yet admit the air. Porch shades, 6 ft. wide, at \$1.50 up. Horton-Spurgeon Furniture Co.

WELL KNOWN BAPTIST TO SPEAK DAILY IN L. A. DURING AUGUST

Rev. W. B. Hinson, D. D., the well known Baptist minister of Portland, Ore., noted as one of the most eloquent preachers on the Pacific coast, will speak in Bible Institute Auditorium, Los Angeles, every day during the month of August. He will begin next Sunday morning with "Crossing the Bar" when it is expected the great building will be filled to give him greeting. In California Baptist conventions, Dr. Hinson is familiar as a man of dignity, learning and exceptional eloquence. He is one of those men whose services are in demand upon every public occasion, because he can be depended upon to deliver an address of exceptional interest and merit. The general public has a cordial invitation to hear him at the Bible Institute.

AMUSEMENTS

At the Lyric
"Unto Herself Alone," the fifth drama of the "Who Pays," complete as shown in three reels, is being presented at the Lyric theater tonight and the same program will be presented tomorrow matinee and evening performance.

In this series of photoplays with a purpose, the conventional, sugar-coated, "and they lived happily ever after" endings are regulated to the fairy-tales from which they emerged. The thin veneer of civilization is washed away in the fountain of truth. Humanity is stripped of its doting delusion. The wife who conforms: the man who forgets. Who Pays?

The extra added attraction is "Vanity," being the story of a faithless woman, featuring Edna Maison. One of those hilarious comedies with Max Asner, Gale Henry and Lillian Peacock is also on the program.

HUNTINGTON BEACH

BREEZY LETTER GIVES NEWS OF HUNTINGTON BEACH

HUNTINGTON BEACH, July 29.—Mrs. David Z. Gardner of South Pasadena, who, with her son, David Z. Gardner, Jr., are occupying their summer cottage on Eighteenth street, entertained the Scribblers' Club of Los Angeles Sunday with a luncheon on the beach. An original program was enjoyed in the evening. Mrs. Gardner is a member of the Scribblers' Club and the members of the club delight in enjoying her hospitality while she is in her beach cottage. Anthony N. Gibson was among the guests on Saturday and while here wrote the closing chapters of a historical novel soon to appear.

Mrs. H. D. Chamberlain and children of South Pasadena are others who are guests at the Gardner cottage. They expect to complete a visit of two weeks before returning to the interior.

Mrs. Gardner's husband, who is a prominent attorney of Los Angeles, comes down, as does the daughter, Miss Elizabeth.

Unusually high tides combined with a touch of phosphorescence have prevailed here for the past few days, or rather, nights, as the high tide has been in the evening. Large numbers of people have watched the high breakers from the bluff and pier. As the weather has been warm the bathing has been fine, notwithstanding the high breakers and many parties have gone in during the evening hours.

On Monday afternoon and evening a party of Eastern Star members and others from Buena Park enjoyed a picnic on the beach and went into the surf in the evening. Another party composed of former Long Beach people who now reside in Huntington Beach, held a wienie roast on the beach.

No serious damage has been done by the tides but much of the sand in front of the bulkhead has been washed out.

The public dancing platform on the beach promises to be a political bone of contention in the near future. Petitions have already been circulated asking the city trustees to forbid the operation of this amusement feature. These petitions have been largely signed and are to be presented to the next meeting of the city trustees.

On the other hand, there is a strong party that favors the continuation of the public dance as an amusement attraction for Huntington Beach. What the outcome will be can not of course be stated. It is rumored that the trustees have their minds made up on the question. Three of them are said to be in favor of the public dance and two opposed to it. It is said that when the trustees recently amended the building ordinance so as to permit frame buildings on the beach they had in mind the establishment of this and other similar attractions and that three at least intend to stand pat on the proposition.

T. B. Talbert and J. K. MacDonald, secretary of the Pacific Oilcloth and Linoleum Company are visiting in San Francisco, calling on the trade with reference to their product and incidentally taking in the exposition. Mr. MacDonald was accompanied by his mother, Mrs. Jennie MacDonald.

Miss May Roberson, principal of the Mound City, Ill., school, and Miss May Hawkins, county superintendent of schools of Pulaski county, Ill., also Miss Flora Hawley of Los Angeles, have been the guests of Mrs. A. E. Murphy for several days. They intend visiting the expositions before going home.

George Carter, Jr., nephew of Mrs. Alexander P. Nelson, has been visiting at the home of Mr. and Mrs. Nelson for some days. Mr. Carter's mother, Mrs. George Carter, and her daughter, Miss Bettie, have just arrived from Chicago and intend making Huntington Beach their home.

Mrs. Homer J. Ballou of Beltingham, Wash., has been visiting Mrs. J. H. Erickson and daughter, Miss Eva Erickson, for some time.

G. W. Spencer of Los Angeles, who has owned property in Huntington Beach for some time has been spending a week here. He plans to move to Huntington Beach next year.

Removal Sale

In view of removing to other quarters, and in order to reduce our stock of Staple and Fancy Groceries, we will make a Special Sale for Cash on any and every thing in stock, commencing July 31st, running 20 days. Fresh, clean stock. This is your opportunity to supply yourself. Don't fail to investigate—and profit by it.

Remember the place.

Palace Market To Move Aug. 1

The Palace Market, Bergman & Obarr proprietors, will move to its new location in the Odd Fellows Building, 311 North Main street, Aug. 1.

An Up-to-Date and Strictly Sanitary Retail Market Will Be Installed

It will be our aim, as it has always been, to provide our many customers with all the conveniences and sanitary protection that any market affords. In connection with the market Bergman & Obarr operate

Santa Ana's Oldest and Best Packing Plant at the Corner of Fourth and Broadway

For years we have conducted the only packing plant in the vicinity of Santa Ana—Establishment No. 11. Our plant complies with all the sanitary regulations, and is regularly inspected. We buy, in so far as possible, all our live stock from local farmers. Bergman & Obarr have the only market cold storage plant in the city.

OUR PRICES ARE LOWEST

Because we operate the only packing plant in Santa Ana. We thus save customers the profits which out of town packers naturally demand. TRY US FOR LOW PRICES AND QUALITY.

Patronize Home Industry --- Boost For Santa Ana

Watch our Bulletin Boards for Daily Specials—Fourth and Broadway.

Bergman & Obarr

Corner Fourth and Broadway
Palace Market, 311 N. Main
AFTER AUG. 1

Miss Marjorie Wyatt was hostess to Misses Lois Rockhold and Lorraine Buffum of Sunday. Messrs Russell Outum, Wade Stamp, Charles Walker and Arnold Rockhold were also entertained at the Wyatt home.

Mrs. Carl Olson, together with her guests, Mrs. Page and Mrs. Briston, have returned from San Diego where they have been visiting the exposition.

Mr. and Mrs. F. H. Scribner of Rosendale, Wis., are the guests of Mrs. L. M. Lindsley.

W. S. Weaver, a well known building contractor of Alhambra has arrived in Huntington Beach and will assist Contractor Harvey Garber in his two jobs, on the National Bank building and on the new grammar school.

Mr. Weaver is accompanied by his wife and son, Russell, who will enjoy an outing at the beach.

The Philathea class of the Christian church held a business meeting followed by a social hour at the home of Mr. and Mrs. Will Gallienne Monday evening.

Tuesday the Sunday school of the Christian church enjoyed a picnic at Orange County Park.

Mrs. M. A. Kester and Mrs. E. K. Kester of Alhambra were the guests of Mrs. H. D. Jackson Friday. The Kesters are both physicians. Mrs. E. K. Kester and Mrs. Jackson both celebrate their birthday on July 23 and this affair was in honor of the occasion.

C. S. Hogenboller of Villa Ridge, Ill., has arrived in Huntington Beach, GAL. 2—BREEZY

Mrs. Martin R. Beach of Los Angeles, daughter of P. R. Canady, accompanied by her husband, have been visiting at the Canady home.

Mr. and Mrs. Ed Logsdon of New York have been looking over Huntington Beach and vicinity with a view to finding a location. They expect to settle somewhere in Orange county.

Mr. and Mrs. W. J. Williams left the latter part of last week for the San Jacinto valley, where they expect to visit Mr. and Mrs. Walter Elliott at Dinuba. Mrs. Williams and Mrs. Elliott were schoolmates at Newcastle, Mo.

Mr. and Mrs. Jesse Crane of Los Angeles have removed to Huntington Beach for the best season at least. Mr. Crane is assistant trainmaster of the Pacific Electric and will have charge of the company's business here.

is the guest of Dr. and Mrs. F. E. Wilson.

The regular meeting of the Busy Bee Club, an organization of girls interested in sewing and fancy work, will be held this afternoon at the home of Miss Sarah Miriam Paine.

Rev. and Mrs. J. W. C. Swan are spending a two-weeks' vacation in Los Angeles. Mrs. W. E. Hibbard of Pasadena is occupying the Swan home during their absence.

Misses Florence and Carrie Sabold of Philadelphia are the guests of Mr. and Mrs. C. W. Warner.

Deputy Grand Master E. E. French of this city installed the officers of the Westminster Odd Fellows last week.

IS SICKNESS A SIN?
If not, it's wicked to neglect illness and means of relief. It's wicked to endure Liver Bils, Headache, Indigestion, Constipation, when one dose of Do-Lo-Lax gives relief. Do-Lo-Lax is Podoxylin (May Apple), without the gripes. It arouses the Liver, increases the flow of bile—Nature's antiseptic in the bowels. Your Constipation and other Bils disappear overnight because Do-Lo-Lax has helped Nature to remove the cause. Get a bottle from your druggist today. Get rid of your Constipation overnight.

ORDER FOR NOTICE FOR HEARING OF PETITION FOR CONVEYANCE

In the Superior Court of the State of California, in and for the County of Orange.

In the Matter of the Estate of Edward R. Amerige, Deceased.
George H. Amerige, the executor of the last will and testament of Edward R. Amerige, deceased, having filed herein his verified petition praying for an order directing the executor of the last will and testament of Edward R. Amerige, deceased, to execute a conveyance of certain real estate:

It is hereby ordered, that the hearing of said petition be had at the Court Room of Department One of this Court, on the 6th day of August, 1915, and that notice thereof be published in the newspaper known as the Santa Ana Daily Evening Register, a newspaper published at Santa Ana, Orange County, California, once a week for at least four successive weeks before said time of hearing.

Dated this 8th day of July, 1915.
Z. B. WISE,
Judge of Superior Court.

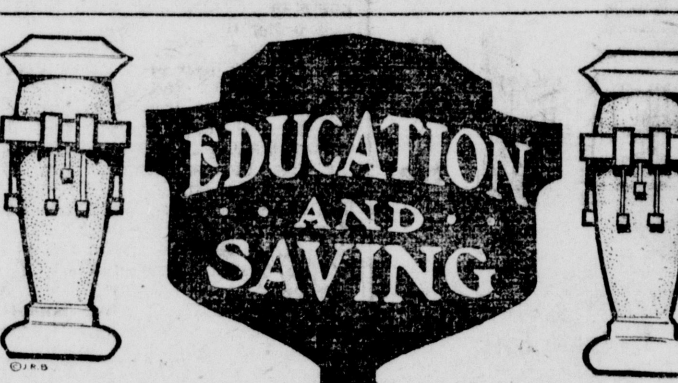

S. M. DAVIS, Attorney for Executor, Trust Building, Santa Ana, Cal.

NOTICE FOR PUBLICATION OF TIME FOR PROVING WILL, ETC.

In the Superior Court of the County of Orange, State of California.

In the Matter of the Estate of John C. L. Sanborn, Deceased.
Notice is hereby given that Friday, the 30th day of July, 1915, at 10 o'clock a. m. of said day, at the Court Room of Department No. 1 of this Court, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Thomas L. Kerr, praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that Letters Testamentary be issued thereon to him, at which time and place all persons interested therein may appear and contest the same.

Dated July 28, 1915.
W. B. WILLIAMS, County Clerk.

That Tread
Is Double-Thickness
Those Grips
Are Deep and Sharp
That Tire
Is a Goodyear Fortified

And Your Tires— Have They These Goodyear Extras?

We argue for the utmost in a tire. Many do not give it, and they can't.

Tire prices have dropped rapidly, profits are small, competition is fierce. Only mammoth outputs can cope with present conditions. So there are many incentives to skimp.

Costly Extras

It will cost us \$1,000,000 this year to make our All-Weather treads double-thick. Most anti-skids are regular treads made rough.

Goodyear Fortified Tires contain five exclusive features, and others which are rare. These extras will cost us on this year's output \$1,635,000.

Our latest improvements, just added this year, will cost us \$500,000. So you are less apt than ever to find other tires which compare with Goodyears.

Price Savings

Despite these extras, Goodyear prices have come down and down. This year's reduction will save our users about \$3,000,000. And that was the third reduction in two years, totaling 45 per cent.

Most of these extras are hidden. Tires which lack them look like tires which have them. But there's enormous difference in the average service.

These things gave Goodyears top place, and have held them there for years. This year they are adding thousands to our users. We invite you to join them. Let Goodyear tires show what these extras mean in

trouble-saving and in extra mileage. You will never go back.

Any dealer will supply you. (2523)

U. S. BREAK WITH GERMANY FEAR, AS DIPLOMATS STUDY CRISIS IN HOPES OF SOLUTION

(CONTINUED FROM PAGE 1)
battle southwest of Mitau.

It is admitted the Germans are on the offensive along the Narew river.

PARIS WAR OFFICE CLAIMS VICTORY IN ALSACE

PARIS, July 29.—The War Office today reports gains in Alsace, where the captured French trenches at St. Hubert and Malencourt were retaken. Mines killed 200 Germans. The French also captured the town of Lingkopf.

BRITISH THINK GERMAN PLAN AGAINST WARSAW FAILS

LONDON, July 29.—War experts here consider that the Russians are winning the Warsaw campaign. It is pointed out that the Slavs held the advance along Gen. Von Mackenzen's front. It is believed the Germans' gigantic envelopment movement has been frustrated. The Teutons have failed to reach Ivangorod and the entire movement is thought checked.

GERMANY GIVES FIGURES ON BRITISH SHIPPING LOSS

BERLIN, July 29.—An official statement today declares the British are suppressing the true figures regarding the number of merchantmen submarined.

It is asserted that since submarining began 223 British vessels, thirty other belligerents' ships, six neutrals mistaken for hostiles, and twenty-seven neutrals carrying contraband, have been sunk.

Three neutrals, mistaken for belligerents, were attacked but not sunk.

TEDDY IN A TAXICAB MAKES FAST SPURT TO CATCH A TRAIN

LOS ANGELES, July 29.—Col. Roosevelt departed eastward today after consulting with Progressive leaders. He almost missed the Salt Lake train and only a swift taxicab dash made connections.

RIVERSIDE, July 29.—Colonel Roosevelt made his last California stop here, where the east-bound train halted long enough to enable the Colonel to shake hands with several thousand admirers crowding the station. He spoke briefly and thanked the crowd for its cordial reception.

INDIANS STARVING ON BARREN RESERVATION, U. S. AID IS SOUGHT

WILLIAMS, Calif., July 29.—Hundreds of Colusa county residents have signed a petition asking Secretary of the Interior Lane to aid sixty-one Cortina Indians who are starving in their barren reservation sixteen miles south-east of here.

They ask the government to purchase a hundred fertile acres in Cortina Valley nearby to save the Indians.

Cattle ranchers and farmers are doing their utmost to help the sufferers.

TIES ROPE AROUND HIS NECK, OTHER END TO CALF; BOY KILLED

EVERETT, July 29.—Chester Thompson, aged ten years, while playing yesterday, tied a rope to his own neck and the other end around the neck of a calf. The calf stamped and dragged the boy to death.

AMERICAN MARINES COWE REVOLUTIONISTS AT PORT AU PRINCE

PORT AU PRINCE, July 29.—The presence of American warships here cowed the revolutionists and the landing of marines was not resisted. One detachment has been quartered at the Hotel Montaine and has erected a wireless station on the roof of the American embassy. Foreigners cheered the Yankees.

GRAPE JUICE? BAH! LOGANBERRY JUICE IS THE REAL JUICE!

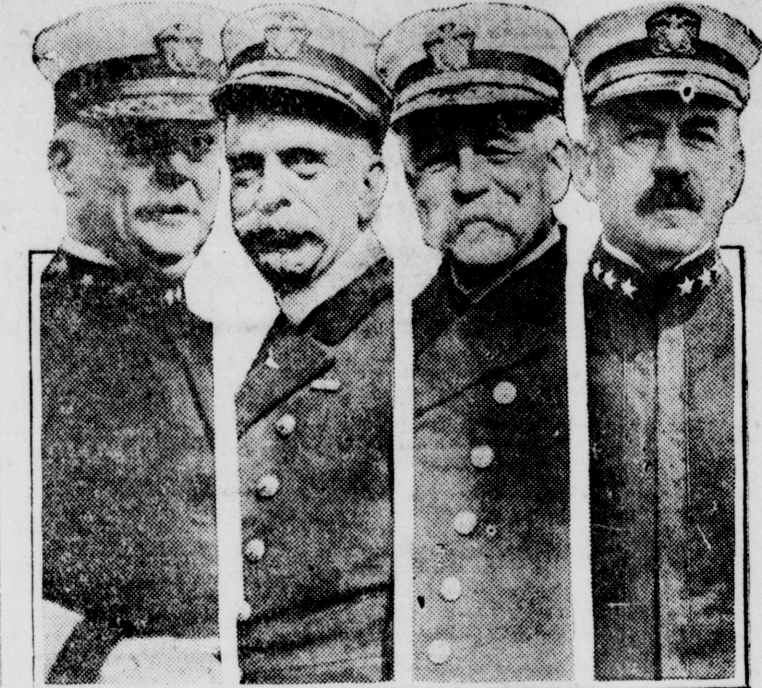

SAN FRANCISCO, July 29.—Fifteen hundred gallons of loganberry juice was served today at the Oregon building at the exposition in celebration of Loganberry Day. Loganberry sherbets and ice-creams were also served. Judge H. P. Logan of Oakland, originator of the berry, spoke.

TALKS ON ONE-CENT POSTAGE NECESSITY

SEATTLE, July 29.—Stanley L. McMichael of Cleveland, field secretary of the National One-Cent Postage Association, today addressed the Commercial Club, saying that two-cent postage was class legislation, the profits going in the form of a subsidy paid out to the special interest.

HERE are four smiling admirals of the United States navy happy over the reception the great fleet under their command received in New York at the review in the Hudson River. Left to right they are Rear Admiral N. R. Usher, Rear Admiral Walter McLean, Rear Admiral C. J. Boush, Admiral F. F. Fletcher.

TO ASK COUNTY TAKE CONTROL OF RIVER AT THE COURT HOUSE SAYS IT'S A CASE OF TOO MUCH MOTHER-LAW

Orange M. and M. Proposes Movement to Handle the Flood Water Problem

ORANGE, July 29.—A movement looking toward a campaign to get the county to take charge of the control of the Santa Ana river was started at Orange last night at a meeting of the Merchants and Manufacturers' Association of this place. The Orange business men propose to take the matter up with other organizations, then through the Associated Chambers of Commerce, and carry the matter to the board of supervisors.

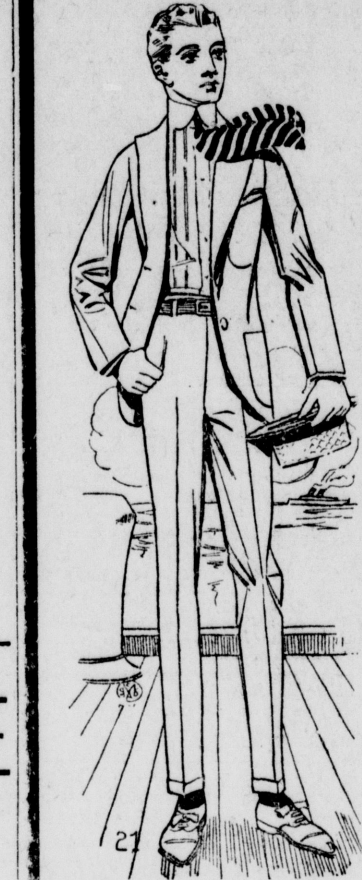

The situation came up for discussion last night when the proposal was made to have a new road built across the Santa Ana river between Olive and Richfield. Orange believes that this road should be built. It was stated last night that supervisor Struck and said that the chances of getting a bridge across the river there at this time are slim, partly for the reason that the river channel is not defined, the bed is wide and the banks uncertain. Any flood might change the course at this point.

Several of those present declared that the county should undertake the entire matter of river control. This idea prevailed, and it was decided to ask the civic bodies at Santa Ana, Anaheim and Fullerton to consider the matter between now and the next Associated Chambers of Commerce meeting, at which time the Orange committee will bring the project up for discussion.

SPECIAL BOARD FOR EASTLAND INQUIRY IS DEMAND OF CHICAGO

CHICAGO, July 29.—The Harbors committee of the Board of Aldermen today passed a resolution asking President Wilson to appoint a special commission to investigate the Eastland disaster. The resolution states that a steamboat inspection service investigation "does not merit public confidence."

Andrew Furuseth, president of the International Seamen's Union, today cited the Eastland disaster as an example of the urgent necessity for the La Follette Seamen's Law. He declared the disaster could never have occurred with the law in effect.

He branded the federal inspection system as "radically wrong."

BE TRIED AUGUST 17 ON SHORTWEIGHT BUTTER CHARGE

Armour Packing Company's Demurrer at Anaheim Over-ruled

At Anaheim this morning the Armour Packing Company of Los Angeles, charged by County Sealer of Weights and Measures George McPhee with selling short weight butter, filed a demurrer, which was over-ruled. The case was set for trial on August 17.

At Anaheim, Tony Gonzales, who pleaded guilty to a charge of stealing a bicycle, was given 90 days in the county jail. He was brought to Santa Ana this morning by Deputy District Attorney Koepsel.

KING'S CUP OFFERED AS REGATTA PRIZE

SAN FRANCISCO, July 29.—Lord Richard P. Neville, representing King George, presented the King's Cup today as an exposition yacht race trophy to be contested for in the championship regatta next month.

ABE RUEF'S HAIR IS GRAYING UP, REPORT

SAN QUENTIN, July 29.—State prison guards today declare that Abe Ruef's hair is turning gray. Ruef is in a state of constant worry and is aging visibly. He is a model prisoner.

TWO BROTHERS MEET DEATH WHILE WADING

STOCKTON, July 29.—Francis and Henry Wheeler, brothers, aged fifteen and eleven years, respectively, were drowned last night in the San Joaquin river. The boys were wading, stepped into a hole and were unable to regain the shore.

IMPORTANT NOTICE! On and after August 1, 1915, we will make only two deliveries, one in the morning, starting 5 a. m. and one in the afternoon, starting 3:30 p. m.

All extra orders must be phoned in before 3 p. m. to go on afternoon delivery. Our wagons carry a full line of our fresh dairy and creamery products, including milk, cream, butter, butter-milk and cottage cheese.

COR. FOURTH AND BUSH

Talks to Farmers

How Much Interest Do You Net Upon the Valuation of Your Land?

After deducting all working expenses, your time and labor, how much do you net per acre per year? 1 per cent, 5 per cent, or 10 per cent? What is the value of your land, \$500, \$750, or \$1000 per acre? How much do you pay for your water, and how much water do you get for what you pay?

If you could buy land much closer in to a much bigger, faster growing city than where you are living at the present time, with better transportation facilities, better stores, amusement and education, as good or better climate than where you are now, and know that the land would net you conservatively 25 per cent per year, where you could grow all the things you are growing at the present time of a superior quality and with better organized markets to buy your produce at higher prices and you could get all the water that you want delivered to your land by ditch at a flat rate of \$1.00 per acre per year, and you could buy that land in California at \$200.00 per acre, practically on your own terms, you would be interested, would you not?

THIS is exactly and truthfully what I have got to offer if you are interested in farming, you owe it to yourself and your family to invest where they can be the most happy and contented and you can make the largest possible profit from the smallest investment. I have a little booklet dealing on this land "FUNDAMENTAL FARMING FACTS" that will be of vital interest to you and may mean your whole future success, call in or write and I will be glad to give you one. THIS is your opportunity to make a success. Will you grasp it?

SANTA ANA, CALIFORNIA, THURSDAY EVENING, JULY 29, 1915.

IT'S TIME FOR THE BUNNIES TO GO HUNTING TALL AND UNCUT

While Commission Says Season Starts Aug. 1, Law Looks to Be July 31

It is time for bunnies to take a vacation. The best place for that vacation is in some secluded, inaccessible spot beneath a pile of cactus, brush and rocks. The reason for that vacation is that on Saturday morning a few score hunters are going to be out seeking bunnies to fry.

Saturday? Yes, Saturday.

The same old question is up again this season. It was up last season and the season before.

On what day does the rabbit season open. Is it the morning of July 31 or the morning of August 1?

Last year a letter was received from H. I. Pritchard, chief deputy of the Los Angeles office of the State Fish and Game Commission, stating that the season started on the morning of August 1. A lot of hunters, however, went hunting on the morning of July 31.

Those who hunted on July 31 believed that the law was plain on the subject. The law fixes the closed season between "the first day of February and the thirty-first of July." Between means between. It does not mean around. It does not mean including. If it meant to include the dates mentioned, the law would have used the word including.

Some such argument as that may be used. The truth of it is that last year no arrests were made for hunting on July 31, and there will be none this year, you can take a bet on that.

There will be a goodly number of hunters straggling along the cactus patches and on brushy hillsides on Saturday of this week. Sunday will find a good many more doing the same thing.

On August 7 the new set of fish and game laws go into effect, and the rabbit season will be forthwith closed. Bunnies can come in out of the brush and risk beside the roads in comparative safety.

FORD PLANT'S WORLD MARK FOR MAKING AUTOMOBILES

DETROIT, Mich., July 29.—The goal set by the Ford Motor Company last August for July 31, 1915, was reached at 1:25 p. m. July 16—the production of 300,000 cars has been crowded into fifteen days less than one year. Not only is this a record for the Ford company, but a world's record as well, since no other motor car manufacturer has approached such a volume of output, even in two or three years.

Therefore, Ford owners are assured of the \$50 rebate on the purchase price of new cars bought since August 1, 1914.

The prophecy that 300,000 Ford cars would be made in the 1915 fiscal year has been realized and the total production for the year ending July 31 will be nearly 310,000.

This production by no means will mean that it has been the most the Ford company could make. At the present time the company is not running to its full capacity, but as is always the case when nearing the end of the fiscal year, production is slackened when the factory is about to take its annual inventory.

Incidentally, it might be mentioned that the history-making car No. 300,000 bears motor No. 530,938, which would seem to mean that up to that time just that many Ford motors, or Ford cars, have been made and sold.

First Ford car was made in June, 1903, only twelve years ago, and the output during the first year was only a few hundred cars.

TIRE BUSINESS IS CHANGING, HE SAYS

That the tire business will eventually settle down to a dependable basis is the opinion of R. E. Lynds of Lynds Tire Company, local agents for Kelly-Springfield tires. So many auto owners are getting "stung" with inferior tires, in the opinion of Lynds, that the day is rapidly approaching when people will demand tires with a reputation with a dependable company back on them. Recent heavy sales of Kelly-Springfield tires, both in California and elsewhere is an indication, Lynds says, of the transition.

Dr. Charles Mueller of Tustin avenue bought a little Buick "Six" touring car this week of the Orange County Garage Company. The doctor lost no time in putting his new purchase through its paces and is delighted with the way it performs.

MAXWELL, CHEVROLET DRIVEN IN BIG TRIP ACROSS CONTINENT

New Jersey Party Surprised At Great Improvement In Road En Route

RENO, Nev., July 29.—W. Atwood and wife, W. D. Lewis and wife, Mrs. Martha Ramsey, and Harold Leonard, chauffeur, were members of a party which started in Reno for one day's run, while on their way to San Francisco from Hackensack, N. Y. Mr. and Mrs. Atwood drove a Maxwell, the other members of the party traveling in a six-cylinder Chevrolet. Mrs. Atwood and Mrs. Lewis are pioneers of the Lincoln highway, having made the same trip with two other women six years ago by motor.

They were more than agreeably surprised by the many changes and improvements accomplished along the route in the last six months. On their trip six years ago they endured real hardships on account of the lack of proper sleeping accommodations for tourists, and poor food, but on the present trip they say they have lived as well as they could at home. They hardly found a ranch where they couldn't get what they needed—even some motor supplies. The most noticeable improvement is in the condition of the roads, they said.

MOTORISTS DONT NEED TO WORRY UNTIL JAN 1

New Laws Relating to Traffic Do Not Go Into Effect Until Then

Reports which have been circulated during the past few weeks to the contrary notwithstanding, the new motor vehicle laws which concern motorists in California do not go into effect until midnight of December 31. It has been reported from various sources recently that those portions of the law relating to dimming of headlights and to other traffic regulations go into effect on August 1. This is not the case.

Section 41 of the new motor vehicle act specifically provides as follows: "The provisions of section 37 of this act and such other provisions hereof as relate to the creation and conduct of the motor vehicle department, the preparation and purchase of forms, supplies and other work incident to the registration of motor vehicles and to the licensing of the operators thereof shall go into effect ninety days after the final adjournment of this session of the legislature, and the remainder of this act shall go into effect at midnight on the thirty-first day of December, in the year one thousand nine hundred fifteen."

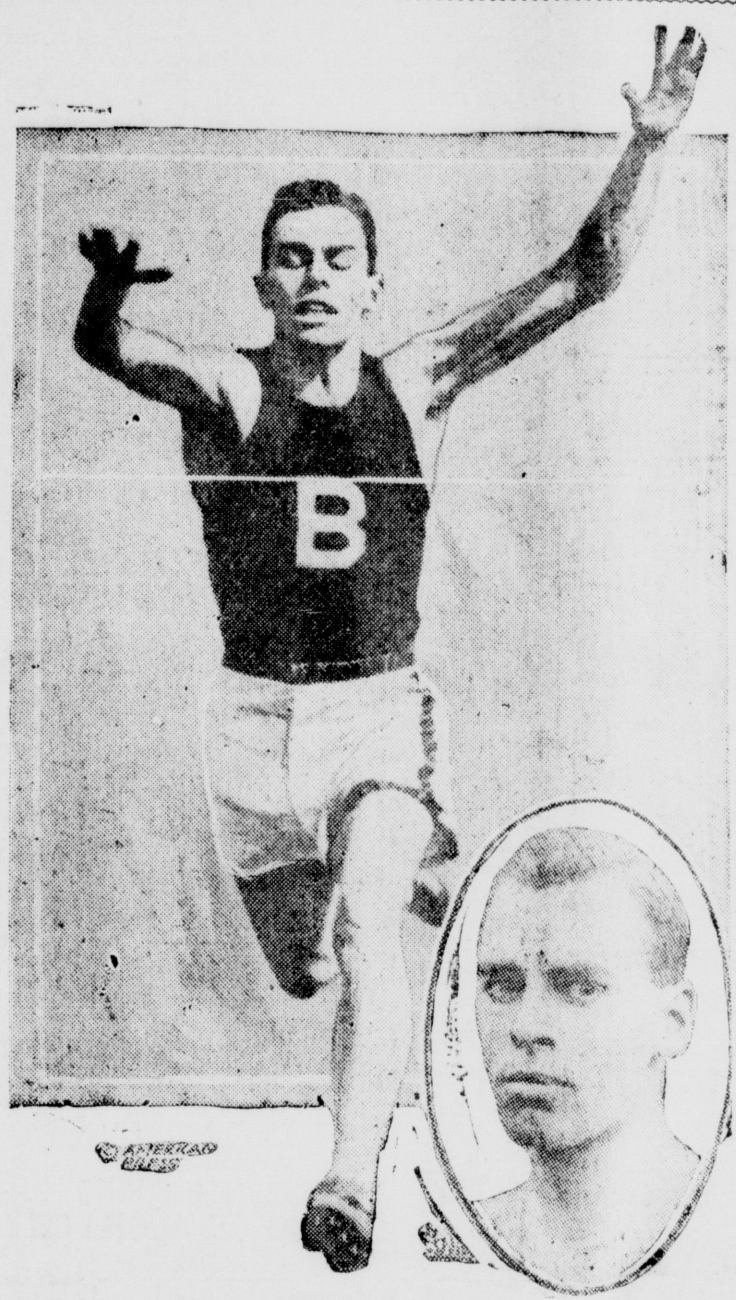

The interpretation placed upon Section 41 by Attorney J. C. Burke and other attorneys is that only those portions of the Vehicle Act of 1915, which provide for the creation of the motor vehicle department and the conduct of its affairs and the licensing of operators, go into effect on August 1. All other provisions of the new Vehicle Act, including, of course, that pertaining to the dimming of lights, according to Attorney Burke, go into effect at midnight of December 31 of the present year.

The following provision of the Vehicle Act of 1915 is not different in any material way from that portion of the 1914 Vehicle Act which provides for the regulation of the same matter:

"Anything herein, to the contrary notwithstanding, if application for the registration of a motor vehicle or for an original chauffeur's license is made during the period beginning on the first day of April and ending on the thirty-first day of June in any year, three-fourths of the appropriate annual fee shall be paid; if application is made during the period beginning on the first day of July and ending on the thirty-first day of September, one-half of the annual fee; if application is made during the period beginning on the first day of October and ending on the thirty-first day of December, one-fourth of the annual fee."

Paragraph C of Section 13 of the Vehicle Act of 1915, pertaining to the dimming of lights and which does not go into effect until midnight of December 31, follows: "Anything hereinbefore to the contrary notwithstanding, it is hereby provided that the front light or lights of every motor vehicle shall be permanently dimmed so as to prevent any glare therefrom which might interfere with the convenience or safety of the use of the highway, or shall be so directed that the center rays thereof shall strike the ground at a distance not to exceed seventy-five feet from the front of such vehicle; provided, that nothing in this subdivision shall be construed to render inoperative the provisions of subdivisions A and B of this section relative to the plain visibility of such light or lights in the direction in which such vehicle may be faced."

SHOWING NORMAN S. TABER in action and a study of Taber's face. Taber has run a mile faster than any other runner athletics has ever known. His record run was made at the Harvard Stadium.

Taber Makes Mile in 4 Minutes, 12 3-5 Seconds, Beating Best Previous Mark, Made By W. C. George

Norman S. Taber, the fastest mile runner athletics has ever seen, is the new sensation of the sporting world. He beat all records, amateur and professional, at the Harvard stadium the other day when he made a mile in 4 minutes 12 3-5 seconds. The professional record had been held by

W. C. George, who made the mile in 4 minutes 12 3-4 seconds in England twenty-nine years ago. The amateur record was made by John Paul Jones, the great Cornell racer, on the Harvard stadium track in 1913. He got over the distance in 4 minutes 14 2-5 seconds.

FORD DAY AT VENICE IS ON AUGUST 7TH

Saturday, August 7 will be Ford Day at Venice and a large number of Ford owners of Orange county are making preparations to participate in the big doings.

There will be a big free barbecue dinner and amusements galore. The Ford brass band of fifty-six star musicians from the Ford factory at Detroit will furnish the best of music and the Ford Joke Band, said to be the greatest mirth-provokers on the road will provide fun for everybody.

There will be a parade of Ford cars and it is predicted that this will be the largest parade of automobiles ever seen on the Pacific coast. Every Ford owner is cordially invited to be there with his family and all are assured a good time.

Monday, August 9, will be Ford Day at the San Diego exposition and a number of Orange county Ford owners are preparing to be there.

HI JASPER GONE: JOE BURKE MAY HAVE HIM ON HIS STAFF

Has Manager Joe Burke of the law-yr's baseball team noticed Hi Jasper, the White Sox pitcher, away from Cap Dillon of the Angels? There is a report to that effect current today.

It is certain that Burke will leave no stone unturned to strengthen his team in preparation for the big game at the Poly grounds Saturday afternoon, inasmuch as Jasper disappeared from Salt Lake yesterday it would not be considered strange by some to have Jasper show up here Saturday, ready to do the hurling for Burke and his cohorts.

Captain Paul H. Wright of the Chamber of Commerce ball team, which is scheduled to meet the lawyers in Saturday's fray, states that in his Kewpie Battery, consisting of C. S. Kelley and Sam Stein, he has a battery that will easily make the legal talent tepidly.

Rivalry between the two teams is growing more and more intense. The Chamber of Commerce men are delighted with the opportunity to sort of even up matters with the lawyers. The C. of C. crew knows that objections, demurrers, answers, torts and the various other implements of the disciples of Blackstone will avail them absolutely nothing during Saturday's game. There will be only one court of final decision Saturday afternoon and that will be the umpire.

Saturday's contest is scheduled to start promptly at 2 o'clock.

FISH FROM WATERS OF CATALINA SHOWN AT BIG EXPOSITION

SAN FRANCISCO, July 29.—That the waters of the Santa Catalina Islands are the paradise of the angler, the best of America and of the most favorable comparison to any fishing spots of the world, is fully demonstrated by the magnificent collection of mounted sea fish on display in the Southern California section of the California building at the Panama-Pacific International exposition. Not only is the collection of fish one of the most amazing ever gotten together but the method of preserving and mounting has attracted the attention not only of anglers but even of dwellers in desert country where fish are seen only in cans.

With a background of hundreds of varieties of sea weeds and sea moss the specimens have been placed on display on the outer walls of the mission-styled motion picture theater. Under some of the finest game specimens have been placed the light rods and lines which landed the fish. The sea weeds and moss have been arranged in a most artistic manner between the specimens showing the collection at a great advantage.

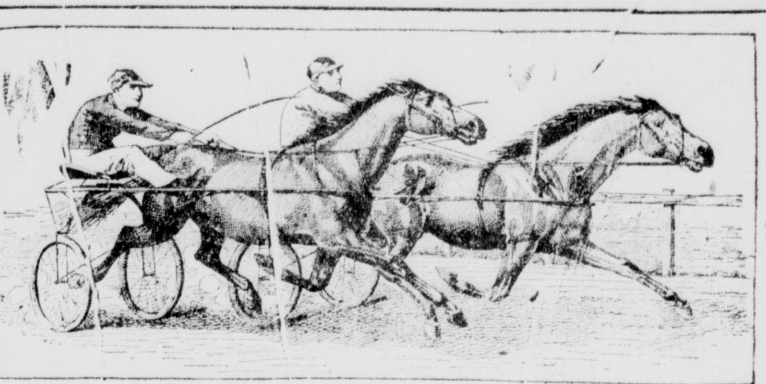

The center of the collection is a 150-pound monster leaping tuna, which required all the skill and patience of an expert angler to capture. Beneath this specimen is the rod and tackle with which it was caught. Among the specimens to be seen in the collection are white sea bass, white fish, opah, yellowtail, halibut, sea trout, skipjack, sunfish, blue-fin tuna, mackerel, flying fish, yellow-fin tuna, black sea bass, rockfish, red sculpin, albacore, swordfish, sheep head, porcupine fish, gold, silver and yellow perch and a great number of shell fish. Thousands of anglers have viewed the collection and pronounced it the best in the country. Many of these have announced their intention of paying a visit to Catalina Island and matching their skill with the finny gamsters.

BUSINESS IS GOOD AND GETTING BETTER SAYS DAN H. LEWIS

The rapidly increasing size of their force of workmen is considered by Dan H. Lewis, proprietor of the Owl Tire & Rubber Company, to be the best evidence of the firm's increasing business. Lewis says that when the shop opened for business early in June there was not enough to keep one man busy, but that the force was later increased to two and recently to three, and it is stated that these employees can not keep up with the re-treading, vulcanizing and section orders.

LURING FISHES WITH MIRROR IS LATEST

CROOKSTON, Minn., July 29.—A Crookston man has the drop on the fishes. He has a device, with a mirror placed perpendicular in the water. In front of it is a pane of plate glass, at a slant of 45 degrees. The bait is hung between the two glasses. As the fish approaches the glass, he sees his image in the looking-glass, and tearing another fish is after the morsel, speeds up. Striking the plate glass, he slides up it, and lands in a convenient net in the boat.

CLOSE RACES DO MUCH TO KEEP GAME GOING THIS YEAR

NEW YORK, July 29.—Just when the wisecracks have the old game of baseball on its feet, the bell saves it. Last year, with the advent of the Feds, the war and kindred other things calculated to make the magnates feel like taking poison, the dopesters had the pastime down for the count of nine. Then came that history-making spurt of the Braves and the fans in eight National League cities flocked to the park to see the Miracle Man and his miracles.

National Off Easy
Incidentally, the National League wasn't nearly so hard hit in the pocketbook last season as was noised about, if all present reports are true. This year, with the schedule more than half completed, two close races are again serving as the bell that prevents the sleep wallop. There have been no closer races in either league than those now being seen.

For instance, the Dodgers: When the Dodgers—they are being called Superbas mostly now—returned to their own playing plot about the first of July, trailing the league, Col. Charley Holliday Ebbs was about to

take the count. No crowds in Flatbush, no enthusiasm, nothing but empty seats in a mighty swell ball park.

Giants Walloped
Along came the Giants; they were walloped. Then the Braves; they were licked even worse. And then the Cubs, chesty by reason of leading the league, blew in. When they left, they left the whole series behind them. The Reds broke the streak by winning one game, but the Superbas took it up again immediately. The Superbas were within two stretches and a grab at first place. The attendance was so great it made up for the deficits earlier in the season. If the Brooklyn continue to win half their games it's a safe bet that Ebbs and the McKeevers will make money on the season.

Sox, Cubs Draw
There is a marked similarity in the Chicago situation. The Sox and Cubs there have been leading the league and drawing good crowds. In St. Louis, the Cards have been nosing around the first division all summer and no loud howls have been heard from Schnuyler Britton. Likewise in Philadelphia and Pittsburg. In Boston the work of the Red Sox has kept interest alive in baseball. And so on.

And this in spite of the fact that all the wise ones predicted the most disastrous season in a decade for baseball. These continued savers of the game can lead to but one conclusion, it appears, and that is that the game is too great, too firmly entrenched in the public interest to be put down for the count by one, two, three or more reverses.

163 PER CENT GAIN IN JUNE OVERLAND OUTPUT

TOLEDO, O., July 29.—The June shipments of the Willys-Overland company, amounting to 9919 cars, show an increase of 163 per cent over those of June, 1914, when 3298 cars left the Toledo factory. In the first six months of the calendar year, the company shipped almost as many cars as they did during the entire 12 months of 1914, or practically double its last year's output. The previous high water mark in Overland production was in the month of March, when 7005 cars were shipped. The record shipment for June exceeds these figures by about 3 per cent.

STUDEBAKERS TO BUY CONN PLANT, ELKHART

SOUTH BEND, Ind., July 29.—The Conn Musical Instrument factory at Elkhart, Ind., is to be taken over by the Studebaker of South Bend. Col. Daniel C. M. Studebaker and Clement Studebaker, it is stated, have arranged to purchase the property for \$800,000.

HERE are Nona Leahy (at left), Louise Debus of Philadelphia and Rose Pitonoff of Boston. Husky maidens, all three, and their wealth of embonpoint was gained solely through swimming.

Aquatic Exercise Should Be Avoided By the Lady Who Desires to Retain Her Petiteness of Figure

Here is the proof in this good old summer time of what swimming will do for women. Let the stout lady beware, despite the fact that it is the finest exercise in the world. She ought, perhaps, to value her health more than her figure, and therefore swim as much as she can. But if she thinks her figure is of supreme importance she may as well understand that she can not take off weight in the water.

Nona Leahy was a little slip of a girl when she began to swim. See her now in this photograph. She is a powerful young woman, and she is yet very young. A few more years of it and she will have a figure like the third lady of the picture.

Miss Debus has admitted she gained ten pounds in 1914. She shows in the photograph as 140, and she doesn't know how much higher she will go.

The most convincing proof of the affinity of fat and water—water taken externally as well as internally—is in the case of Miss Rose Pitonoff. Six years ago when she startled the public by her feats in Boston harbor she was a slip of a girl. She was strong, of course, but she weighed only 120 pounds. The other day she tipped the scales at 180. She had gained sixty pounds in six years and she is still under 25 years of age.

PROTECTIVE LEGISLATION MAKES SWANS MORE NUMEROUS IN STATE

BY HAROLD C. BRYANT
Game Expert of California Fish and Game Commission

The swan is the largest of all our water fowl and by many is thought to be the most graceful and beautiful. Two wild swans have been known to occur within the state of California during the winter season. One, the trumpeter swan, is now extinct, or at least has not been seen within the state for the last seventeen years. The other, the whistling swan, still appears in small numbers each winter. The whistling swan breeds principally north of the Arctic circle, being found commonly along the Arctic coast in the vicinity of the mouth of the Mackenzie river and also through much of Alaska. It winters along the Atlantic coast and along the Pacific coast from British Columbia to Southern California and more occasionally Lower California and Mexico. In California the whistling swan is a fairly common winter visitor to the larger freshwater lakes and brackish heads of bays as far south as Orange county. During the last winter swans have been reported as unusually abundant in the central part of the state, as many as fifty being seen in a single flock.

To any one acquainted with domesticated swans, the wild birds are easy to identify. In flight swans may be recognized by their pure white or yellowish plumage, large size, long necks and their goose-like flock formation. From the trumpeter swan, the whistling swan is distinguished by a yellowish spot on each side of the bill just in front of the eye, and by the shorter and broader bill. Birds less than two years old are readily distinguished even in flight by the leaden cast to their plumage.

The nest, usually placed in marshy ground, is a bulky structure composed of grass and moss about three feet in diameter at the base and about eighteen inches high. The eggs number from three to six and are dull white in color. The young are hatched the last of June or the first of July and soon afterward the parents lead them to some large lake or stream, where the old birds make their quill feathers, during which process they are unable to fly. In moving southward in the fall from their Arctic homes swans apparently divide their forces, part going toward the Pacific coast and part southeastward toward the South Atlantic states and part south through the region of the Mississippi Valley.

In flight the wings of the whistling swan often appear motionless, thus making a striking contrast to the flapping flight of geese. Like the geese, the long diverging lines are presumably headed by an experienced bird. The call resembles somewhat the notes made by a French horn. Whistling swans always feed in

comparatively shallow water, using their long necks to tear loose the various aquatic grasses and roots which they relish. When they find the favorite morsels they often dig large holes in the bottom. When standing on their heads in deeper water, the feet are used in helping the birds to maintain their balance. But, about roots of aquatic plants are often eaten and occasionally grain fields are damaged when a flock begins feeding on the young wheat or barley.

Old birds are tough and not particularly attractive for the table, but the young are considered a delicacy. Formerly large numbers were sold on the markets. During the season of 1895-96 there were sold on the markets of San Francisco and Los Angeles 518 swans, most of them probably of this species. As the swan is a very large bird, weighing between twelve and a half and sixteen pounds, it was formerly the height of the ambition of many hunters to kill one of these birds. There was, consequently, when the birds were unprotected, a heavy drain on the numbers of swans. In addition their value for feathers and down has brought on a species of swans to practical extermination, while the other, the whistling swan, is alarmingly scarce.

In many places where swans formerly wintered regularly there are none at all to be seen at the present time. In other places very small flocks appear, where formerly flocks of hundreds were to be seen. It is gratifying to note, however, that owing to the rigid protection now afforded the bird the last few years have seen them appearing in increasing numbers in west central California. During the past season they have been unusually abundant in this region. Flocks of fifty or more have been seen at several different places in the Sacramento Valley. This would appear to be a tribute to the effectiveness of a rigid law when it is supported by popular sentiment. California is fortunate in being one of the states in which the whistling swan winters. The people of the state, therefore, should take an interest in protecting these winter visitors which annually seek our hospitality.

HOOSICK VALLEY MEET
HOOSICK FALLS, N. Y., July 29.—The Hoosick Valley tennis championship will be fought for in a tournament beginning tomorrow at the Country Club, with a number of men of state reputation contending.

WASHING SODA
Water jackets and radiators may be cleaned by introducing, under pressure, a saturated solution of washing soda in water.

ATHLETES FAMED WORLD OVER TO PARTICIPATE AT 'FRISCO

The National Track and Field Amateur championships will be decided at the Panama-Pacific International Exposition stadium on Saturday, August 7th, at 1 o'clock p. m.

The world's greatest athletes will be in competition, and all indications point to the establishment of new records in every branch of sport.

Taber, the record holder for the mile run; Meredith, the world's champion quarter and half miler; Kohlenstein, of Finland, the world's champion distance runner; Oler, Richards and Horine, world's greatest high jumpers; Loomis, Parker and Drew, record holding sprinters; Kelly, Maennix, Case and Murray, the greatest hurdlers; McGrath and McDonald, premier weight hurdlers, are a few of the athletes who will strive for world's records on that day.

All authorities consider that this meet will be the greatest the world has ever seen, and will eclipse the Olympian games. Arrangements have been made to insure proper accommodations to all who may wish to attend, and a number of seats have been reserved.

THIS MIGHT BE GOOD IDEA FOR THIS COUNTY

Robert H. Rinehart and Harry Locke, of El Paso, Texas, members of the El Paso Automobile club, which is an auxiliary of the El Paso chamber of commerce, have completed a log of the motor routes and roads leading in every direction from El Paso. The distribution of the new logs will be under the auspices of the chamber of commerce.

ORGANIZE TO BOOST GOOD ROADS IN TEXAS

The Lower Rio Grande Valley Automobile association has been organized at Mission, Tex. Its membership is composed of representative business men and farmers of the different towns of this region. The chief object of the association is to promote the construction of a system of good roads to lead from the valley to San Antonio, Laredo and Corpus Christi.

TO ASSEMBLE FORDS AT OKLAHOMA CITY

OKLAHOMA CITY, Okla., July 29.—An assembling plant that will employ between 300 and 500 men is to be built in this city by the Ford Motor company within the next six months. The plant will be situated on the block of ground west of the court house, between Main and Grand streets, and abutting the Frisco rail-road tracks.

COLORADO SHOWS BIG REGISTRATION GAINS

DENVER, Colo., July 29.—A total of 21,825 motor cars, representing 197 different makes, is Colorado's registration for the first six months of 1915. This is a gain of more than 5000 cars, or 30 per cent over the same period last year, and a gain of 3395 cars, or 18 per cent, over the total registration for 1914, which was 18,435.

INVESTIGATING SHORT MEASURE GAS PUMPS

Inspection recently in Dallas, Tex., brought to light the fact that some of the gasoline pumps were giving short measures—some discrepancies being as much as one-half pint to the quart. Now the municipalities in other parts of Texas plan to conduct a similar investigation with a view to correcting any short pump measures that may be found to exist.

SAFETY FIRST CAR IS HANDY IN SAVING CAR

The safety first motor car that is touring the country in the interests of the Safety First Federation of America recently had use in Chicago for some of the safety first devices with which it is equipped. A car enveloped in flames was discovered by the safety first car and the fire quickly extinguished. The crowd that gathered voted this one of the best actual demonstrations of the utility of safety first devices yet seen.

FAR WESTERN CHAMPIONSHIPS
SAN FRANCISCO, July 29.—The Far Western championship contests, track, field, and Marathon, probably the most important athletic events of the fair thus far, begin tomorrow with a strong list of entrants. The meet will conclude Saturday.

ADKINSON PLAVAN OFF FOR 'FRISCO TODAY TO GO INTO MEET

Ray Adkinson, the well known sprinter, and Ernest Plavan, almost equally as well known as a broad jumper, both of Santa Ana, left Los Angeles today for San Francisco, where they will participate in the national championship meet to be held at the Panama-Pacific Exposition. The meet began yesterday and will continue until August 10.

Adkinson and Plavan will wear the colors of the Los Angeles Athletic club in the big meet at the Bay City. On July 15 Clyde Holley of the club asked the two local athletes to compete. Since that time Adkinson and Plavan have been at work getting into condition.

Left Here Monday
They left Santa Ana Monday and immediately went to work under the tutelage of the L. A. A. C. coach. Their work was halted yesterday evening, but will be resumed upon their arrival in San Francisco.

Adkinson, a graduate of the local high school, has finished his first year at Pomona college. His work in the sprints has already attracted statewide attention. He will enter the quarter-mile and the mile relay for the L. A. A. C., and will run either the quarter or half in the Junior meet.

In Fast Company
Plavan graduated from the local high school this year. His marks in the broad jump have attracted a great deal of attention. He will enter the broad jump events at the fair. He is not decided as to whether he will enter the javelin throw.

Adkinson and Plavan will be in such company as Fred Thomson, all-round champion; Fred Kelly, the hurdle champion, who is an Orange man; Howard Drew, sprinting champion; Bonnett, the Stanford half-miler, and numbers of others, all of whom will endeavor to uphold the glory of the L. A. A. C.

WAR-TORN PARIS IS INVADED BY JITBUS

PARIS, July 29.—Paris has come into line with American jitney cities. The innovation is due to the necessities of warfare and is countenanced by the municipal authorities and the established transportation interests. When her 1100 motor-buses were swept into the war machine, the center of Paris, into which trolley cars are not allowed to penetrate, found itself with no other means of transportation than the subway. When the army had taken all the motor cars that were worth taking, enterprising individuals found a few old-time vehicles which could be used for a jitney service.

In every case the driver is a man, but on every jitney the conductor is a woman. Men are too scarce in France at this time to be used for the easy task of punching 4-cent jitney tickets.

TWO KISSEL MODELS TO REMAIN UNCHANGED

HARTFORD, Wis., July 29.—While no announcement has been made by the Kissel Motor Car company concerning its 1916 line, it is assured that the All-Year model and the six 42 will be continued practically unchanged. It is stated that the body department of the concern has perfected a new sedan top design, which will be announced shortly.

MICHELIN TIRE FIRM ANNOUNCES REDUCTION

NEW YORK, July 29.—The Michelin Tire company has reduced the price on all its tires 10 per cent. The reduction, according to officials, is due to the greatly increased output of the American plant at Milltown, N. J., which now is supplying orders formerly filled by the European factories.

BARNEY GETS DELAGE FOR RACE CAMPAIGN

CHICAGO, July 29.—After a quest covering three months, Barney Oldfield at last has secured a car for the Elgin road races and the fall speedway campaign. The "master driver's" new mount is a Delage, one of the three built by the French maker for the 1914 grand prix.

FISHERMEN HAVE BIG CATCH
Anaheim Herald: A party of Anaheim fishermen went to Laguna Beach the other day and went deep-sea fishing. They had fine luck, catching about three hundred pounds of fish. Among them were eight big albacore. Those who were in the party were Dr. E. C. Brownlee of Keokuk, Iowa; F. C. Krause, W. H. Houts, Howard Krause, M. W. Martenet, Bud Sackett and J. Cook.

DANIEL TIPPLE, the Indianapolis American Association pitcher, for whom the owners of the Yankees were reported to have paid \$10,000.

New Hurling Phenom Has a Record of Eleven Games Won and Two Lost

Colonel Jacob Rupert and Captain T. L. Huston, the new owners of the Yankees of New York, do not themselves say they paid \$10,000 for Tipple, but they did give enough to make it very interesting for the management of the Indianapolis club.

Tipple is twenty-four years of age and six feet tall, weighing 170 pounds. He was born in Rockford, Ill. His first experience as a pitcher was with the Omaha club of the Western League. Indianapolis has got him, and this year so far he has won eleven games and lost two, which is a very fine record for a young pitcher. However, though the Yankees are in need of pitchers, he won't be delivered to the club until the American Association season closes. The New York club will be able to try him out for a few days before the close of the big league season.

WATER CARNIVAL IS ON TONIGHT AT PLUNGE

Those interested in water sports and life-saving will be treated to a little free show this evening when a water carnival consisting of diving, swimming, life-saving and other stunts will be staged in the Athletic Club plunge.

Many of the best local swimmers will be on hand to display their ability as water dogs. A good hour's entertainment with several laugh-provoking stunts have already been arranged. As a special feature a demonstration of the principal strokes in swimming will be given as well as the means employed to rescue a drowning person without the aid of ropes or other paraphernalia. Life-saving, or the ways to rescue a drowning person while comparatively simple, are things which everyone should know, especially those frequenting the beaches. There are occasions when ropes, lifebelts and other things are not to be had, and it is then that a little thought and knowledge of other means used in rescue work can be used to a great advantage.

For those who are interested in learning to swim, a short demonstration in the elementary principles of swimming will be given.

The carnival will start promptly at 7:20. It is open to all and no charge will be made.

BRITTON-DUNDEE MILL TONIGHT IN NEW YORK

NEW YORK, July 29.—A 10-round bout that should go a long way towards determining the next opponent of Lightweight Champion Freddie Welsh will be staged tonight at Madison Square Garden between Jack Britton of Chicago and Johnny Dundee. Both men admittedly are at the top of the contender's heap, and both, in the opinion of ring men, could beat Welsh in a long fight. Betting today was even.

BRAGG IS TO PILOT STUTZ FOR DE PALMA

CHICAGO, July 29.—E. C. Patterson of Chicago, backer of Ralph de Palma in his racing campaign, purchased one of the 300-inch cars made by Harry Stutz for this year's contests, the one driven by Howdy Wilcox at Indianapolis and Chicago. Before the deal was consummated, the car was entered in the Elgin road races by de Palma, who has secured Caleb Bragg to pilot it.

HARRY LAUDER

World-famous Scotch Comedian, says:

"Tuxedo, for mildness, purity and fragrance, THE tobacco for me. With my pipe filled with good old TUXEDO, all my troubles go up in smoke. In all my world-wide travels I've yet to find its equal as a slow-burning, cool-tasting, sweet-flavored tobacco. TUXEDO satisfies me completely."

Harry Lauder

Tuxedo Keeps the World in Good Humor

Here is the man whose life work is to make millions of people happy. In pursuing his call, he travels the wide world over. He is a great lover of his pipe, and in all sorts of corners of the earth he has tried all sorts of tobaccos.

What is his unqualified statement in regard to Tuxedo? Read it again: "I've yet to find its equal." This is the frank and candid opinion of thousands and thousands of experienced, judicious smokers. Tuxedo is absolutely the best all-around tobacco that modern tobacco science can make.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Uncorking a tin of Tuxedo is like lifting the lid on concentrated sunshine. And then, when you fire up! Well! The first puff's a revelation, the second's a revolution, the third just gets you happy-like! Then you're off—just as sure as you'll see the green grass and hear the birds sing next Spring.

The exclusive "Tuxedo Process" brings out the unsurpassed mildness, delicate fragrance and mellow flavor of the Burley leaf in a way that has never been successfully imitated. At the same time it refines the tobacco until every trace of harshness and "bite" disappears.

YOU CAN BUY TUXEDO EVERYWHERE

MEMBERSHIP AT COUNTRY CLUB IS GROWING

255 Are Now Enrolled; 275 Mark Expected to Be Reached Soon

Members of the Orange County Country Club are confident that the membership in the organization will reach 275 within the next few weeks. All are working enthusiastically to boost the membership in order that the club may avail itself of the handsome offer made by James Irvine, namely, that when the membership reaches 275 he will make the club a present of \$2000. This sum is all that is needed to pay off the indebtedness of the organization.

The entrance fee has been reduced from \$50 to \$25 for the time being. Before the present membership campaign began the membership was 235. It is now 255. There seems little doubt now that the coveted 275 mark will be reached by the middle of August, at which time the reduced entrance rate will be withdrawn.

Attendance on the club's course is keeping up nicely during the summer. Although some little difficulty is being experienced in getting members to turn out for team matches, the course is practically always full of players.

Recently Bob Simpson, the club professional, went out in 33 strokes and back in 35, which is the record for the course. A number of the more expert members are trying hard to equal or better Simpson's mark.

AJAX TIRE GAINING IN POPULARITY

"Ajax tires are gaining in popularity every day," said Charles Bevis of the Hoosier Vulcanizing Works today. "I have only had the agency here for the Ajax about two months and already they are my best sellers. The fact is, seasoned motorists are demanding the best to be had in tires and while I sell a few of the cheaper grades they are usually to those who are new in the automobile game. The old-timers have learned that the best tire obtainable is the cheapest."

JAY-EYE-SEE

Louis Dishrow's Jay-Eye-See not only is too large to compete in any of the speedway races, but the car is being used in unsanctioned meets, thus barring it from competition in A. A. A. races.

ALL GERMAN MERCEDES CARS WERE BUILT FOR POSSIBLE WAR UTILITY

Were Made So Tops Could Be Stripped Off and Guns Mounted

LONDON, July 29.—A statement has been made by a former German prisoner who has just arrived in this city, that all German Mercedes cars were built for possible use in war. C. B. Pray, an American motor mechanic, states that his work up to the time of his arrest brought him into daily contact with the German Mercedes car. He says the chassis of every car of the 1912, 1913 or 1914 models was perforated at the sides with two sets of four holes each, at equal distances from the front and rear, for the purpose of riveting over the chassis frame a plate heavy enough to bear a weight of 1,000 kilograms.

In May and June, 1914, the cars were called in for inspection and returned with the plates mentioned duly affixed without the owners' knowledge of what had been done. When the cars were requisitioned for war only the tops had to be ripped off and guns and searchlights mounted in their places.

'Twas Ever Thus

Yesterday evening at Birch Park we had another one of our regular Wednesday evening conversation feasts. Everyone had a lovely time. All those present enjoyed themselves to the limit—bandying words hither and yon. The hum of many voices echoing through the park warmed the cockles of the heart. The childish prattle, mingled with the more solemn bass boomings and rumblings of the elder folk, combined to make a not-to-be-denied volume of sound.

It is reported that the band played a number of selections. Some who were present at the delightful gathering aver that during a slight lull in the conversation they could distinguish musical sounds akin to those made by a band of musical instruments. However, as the majority of those present last night did not notice these sounds the report is discredited.

LITTLE BEAR LAKE IS OPENED TO ANGLERS

On August 1 Little Bear Lake will be open to the public under the following conditions: One and one-half miles of the south shore of the lake will be free to anglers; a small charge will be made for parking autos on the lake shore within the fence, free parking will be permitted outside the fence.

A fleet of boats has been ordered and will be placed in commission at once.

Camping will be permitted only on the outside of the fence—about one-quarter mile from the shore of the lake.

Bait and fishing tackle may be obtained on the premises from the concessionaires. Recent trials have developed the fact that there are abundant fish biting freely.

300-MILE AUTO GRIND PLAN AT JUAREZ TRACK

EL PASO, Tex., July 29.—The El Paso Automobile club has applied to the A. A. A. for a sanction for a 300-mile race to be run over the one-mile track of the Juarez Jockey club, just over the Mexican border, the last week in September. The promoters will bank the turns heavily, so as to make them safe and increase the speed. Purses aggregating \$5000 will be hung up for the several races, which, in addition to the proposed 300-mile event, will make up a three-day program now in mind. Transcontinental travel, to and from the expositions at San Francisco and San Diego, will be at its height at the time the races will be held, insuring a good attendance at the meet.

GARAGE MEN PROFIT BY TOURING INCREASE

Many garage men located on the main and intersecting routes between middle western points and California are profiting largely by the increase in transcontinental touring. Ordinarily most of the smaller garages and shops carry a comparatively small stock of accessories and supplies, but since the rush of overland travel these stocks have proved inadequate many times and larger orders are necessary to supply the demand.

MAKES ONE CAR OUT OF PARTS OF TWELVE

Readers of certain daily papers are familiar with the "Kabibble Complex" as shown on the cartoon page. A car that might rightfully be named the Complex has been built by Louis Schwallensticker, of Alton, Ill., from parts of twelve different motor cars. The engine is a combination of parts from three other engines. The builder admits that the car, although it runs, needs some improvements.

DITCHES CAR TO AVOID SMASH; ASKS DAMAGES

The usual situation was reversed recently by Thomas J. Jones, of Danville, Ill., owner of a motor car, when he filed suit for damages in the circuit court against Joseph Lawson to recover for damages to the car when Lawson declined to give the complainant half of the road. Jones avers that he was forced to run his car into the ditch to avert a collision with Lawson's buggy. Damages to the extent of \$400 are asked.

THREE-YEAR LICENSES ARE ADOPTED IN IOWA

Iowa has taken a new departure from the practice of issuing license plates each year and has contracted for 250,000 tags which will be put into use January 1, 1916, and be good for three years instead of one.

TEX RICKARD BOOSTS FOR GIANT SPEEDWAY IN SOUTH AMERICA

\$100,000 Prizes For Inaugural Race at Buenos Aires

CHICAGO, July 29.—South America is to have a motor speedway. As representative of a syndicate of business men of the Argentine republic, Tex Rickard, the sport impresario who was prominent in the promotion of the Jeffries-Johnson fight at Reno five years ago, arrived in Chicago last week to inspect the local speedway and will also look over the Sheephead Bay track before returning in September to Buenos Aires, where the South American course will be located.

According to Rickard, the syndicate he represents contemplates the construction of a 2 or 2½-mile board speedway which will be ready for an inaugural race, 500 miles in length, by Christmas day, 1916. As there are few drivers and racing cars in South America, \$25,000 will be divided among the star pilots of the United States and Europe for expense money. A purse of \$100,000 will be hung up for the opening race.

PRIZE FIGHTS IN HAWAII THINGS OF THE PAST

WASHINGTON, July 29.—Jeff McCarn, U. S. District Attorney for Hawaii, who has had the interesting experience of being indicted and tried in his own court, says prize-fighting is a thing of the past in Hawaii. Prize-fighting, or rather, the lack of it, was the thing that led to McCarn being indicted and tried. Also it led to his being severely beaten and bruised very shortly after he accepted President Wilson's appointment to the island job.

McCarn having brought his children back to Nashville, Tenn., to put them in school, ran along to Washington to give Attorney General Gregory first-hand information on his sensational term in Hawaii and on other things.

Natives Favor Bouts
"Most of the best people of the island favor holding prizefights," said McCarn, "but the federal law being absolutely opposed, I could do nothing but enforce the law. It was pointed out to me that the law never had been enforced and that previous administrations were aware of its non-enforcement. It was suggested, too, that a test case be brought, but I could not see any necessity for a test case. The law is plain. The only test would have been of public sentiment."

"There are other objections, the chief being that U. S. soldiers are led to lose a large part of their pay gambling on the fights."

Spectators Liable
"Many fights have been advertised, but none has been held, for the law provides that every person attending is liable to punishment, as well as the principals."

For his attitude in that matter, McCarn said, he was set upon by a crowd in the courthouse and terribly beaten. "You wouldn't have recognized me for months," he said, grinning. Following the assault, he said, he was indicted on a charge of "assault with a deadly weapon," it being charged that he drew the weapon, a revolver, and was only prevented from killing one of his assailants by the action of another in seizing the hammer of the revolver. In the federal court the matter finally was dismissed and prosecution then began in the territorial court.

Funny Thing
There the first jury disagreed, five for conviction and seven for dismissal. After a second trial the jury acquitted him in three minutes.

"Funny thing for a prosecuting attorney to go through, wasn't it?" said McCarn.

"It's a great little island, Hawaii," said the district attorney. "The owners, the sugar growers, are more prosperous now than at any time in their experience, I believe. The governor, talking in San Francisco recently, however, made the mistake of saying they had more money than they knew what to do with. This aroused bad feeling, apparently, because the sugar growers are sure they do know what to do with it."

GRAPHITE
Graphite is a good lubricant, but the ordinary form is not as good for gears as graphite preparations, which have the consistency of ordinary gear oil.
